The Board resolved: -

to grant the application

APPLICATION FOR VARIATION OF PREMISES LICENCE - SPAR, 254 NORTH DEESIDE ROAD, PETERCULTER

22. The Board heard from Sandy Munro, Depute Clerk to the Board that there had been no objections or representations received in connection with the application and that all elements of the application were within policy.

The Board resolved: -

to grant the application

APPLICATION FOR VARIATION OF PREMISES LICENCE -TESCO EXPRESS, 35 VICTORIA STREET, DYCE

23. The Board heard from Sandy Munro, Depute Clerk to the Board that there had been no objections or representations received in connection with the application and that all elements of the application were within policy.

The Board resolved: -

to grant the application

LICENSING BOARD

26 April 2022

APPLICATION FOR VARIATION OF PREMISES LICENCE - THE BOBBIN, 500 KING STREET

24. The Board heard from Mr Munro, Depute Clerk to the Board that the application sought to add an external area at the rear of the premises and to vary the terminal hour on Fridays and Saturdays to 01:00.

The Board had before them 5 letters of objections from members of the public.

Thereafter the Board heard from Audrey Junner, Solicitor in support of the application. Mrs Junner advised that their client was willing to accept a terminal hour of 21:00 for the external area at the rear. The Board heard from Mr & Mrs Bowie who spoke in support of their objection.

The Board resolved: -

To grant the application in respect of the amendment to the terminal hour only. The Board refused the addition of the external area in support of the licensing objective preventing public nuisance.

APPLICATION FOR AN OCCASIONAL LICENCE - SIBERIA BAR & HOTEL

25. The Board heard from Sandy Munro, Depute Clerk to the Board. The Board had before them an application for an occasional licence for Siberia Bar and Hotel. The application sought to licence a pop-up licensed area for May Day Bank Holiday celebrations on Saturday 30th April and Sunday 1st May.

The Board had before them letters of representation from Police Scotland and the LSO. The recommended conditions contain in the letters had been accepted by the applicant with the exception of the condition in respect of amplified music.

The Board heard from Niall Hassard, Solicitor in support of the application.

The Board resolved: -

To depart from policy and to grant the application without the standard condition in respect of amplified music.

APPLICATION FOR OCCASIONAL LICENCE - THE BIKE YARD

26. The Board had before them an application for an occasional licence for the Bike Yard, Hutcheon Street, Aberdeen, letters for representation from Police Scotland and the LSO and 2 objections from members of the Public.

LICENSING BOARD

26 April 2022

Mr Sandy Munro, Depute Clerk to the Board advised that 2 further objections from members of the public had been received out with the statutory timescale for submitting objections.

The Board resolved: -

Not to accept the late objections.

The Board heard from Niall Hassard, Solicitor, Rory Masson and Scott Forrest speak in support of the application and from Gregor McLellan and Caroline Nicoll in support of their objections. The Board also heard from Sergeant Grant and John Philips in respect of their representations.

Mr McLellan advised that he had provided video evidence earlier in the day that he wished to be shown to the Board. Mr Munro advised that due to the late submission of the video, it had not been shared with the applicants or their agent and that the Board should determine whether to allow the video to form part of Mr McLellan submissions.

The Board resolved: -

to allow the video.

The Board resolved: -

to amend the application hours to 12:00 to 22:00 for both the internal area and external area and to add conditions prohibiting music in the external area and permitting low level background music in the internal area.

The Board granted the application as amended.

NOTICE OF CONVICTION

27. The Board had before them a letter of representation from Police Scotland in respect of a Personal Licence Holder.

The Board heard from Sergeant Grant in support of his letter and from the Licence holder.

Thereafter the Board heard from Sandy Munro, Depute Clerk to the Board that the Board could: take no action, endorse the licence, suspend the licence or revoke the licence.

The Board resolved:-

LICENSING BOARD

26 April 2022

Having found the licence holder to have acted in a manner inconsistent with the licensing objection of preventing crime and disorder to endorse the licence.

LICENSING BOARD POLICY STATEMENT - FEEDBACK

28. The Board had before it, initial feedback received in connection with the Licensing Policy Statement. The Board heard from Sandy Munro, Depute Clerk to the Board that the feedback was generally positive and would provide a starting point for developing the next Policy.

The Board resolved: -

To note the feedback

GENERAL DIRECTION

29. The Board had before them suggested dates received from the trade that the Board might want to consider for a general direction.

Sandy Munro, Depute Clerk to the Board advised that in recent years the Board had granted a General Direction for the Festive Period only.

The Board resolved: -

To grant a general direction for every Friday and Saturday in December and Christmas Eve, Boxing Day, New Years Eve and New Years Day (where these days don't fall on a Friday or Saturday)

EXTERNAL AREA DISCUSSION

30. Sandy Munro, Depute Clerk to the Board advised that some members of the Board's signing rota had requested that a discussion on external areas and amplified music come to the full Board for discussion. Mr Munro reminded the Board that they had allowed a relaxation of the condition preventing amplified music in external areas during the festive period in 2021.

The Board resolved: -

to allow a relaxation of the condition preventing amplified music in external area The relaxation would apply during the months of June, July and August for premises with external areas within the footprint of their licensed area until 20:00.

LICENSING BOARD

26 April 2022

ADDITIONAL BOARD MEETING

31. Sandy Munro, Depute Clerk to the Board advised that due to the Local Council elections there was not another Board meeting scheduled until August. Mr Munro commented that there was a significant gap between April and August and considered that an additional meeting in June would be helpful.

The Board resolved: -

to hold an additional meeting on Tuesday 21 June 2022

LICENSING BOARD INFORMATION SHEET

TYPE OF APPLICATION: APPLICATION FOR PROVISIONAL PREMISES
LICENCE

PREMISES: FOODSTORY, 13 -15 THISTLE STREET, ABERDEEN

DESCRIPTION

On and Off sales consumption. Offering conference & restaurant facilities, bar meals, social functions, recorded music, live performances and indoor/outdoor sports.

OBJECTIONS/REPRESENTATIONS

- None

The applicant has accepted the External Areas Conditions and Local Conditions – Duty of Care, Drugs Policy, CCTV & Radio Link

POLICY

Supplementary Policy – Licensed Hours

Whilst all applications will be dealt with on their own merits the Board considers it necessary for the promotion of the licensing objectives to set parameters with respect to licensed hours. Any application seeking hours outwith those detailed below will be expected to satisfy the Board that there are legitimate grounds for departing from policy and demonstrate that the granting of such hours would not be contrary to the licensing objectives.

Off-Sale Premises

Maximum trading hours for off-sale premises are set by statute. The Board have no power to grant off-sales hours prior to 1000 or after 2200 hours. It should be noted that these are the maximum permitted hours and the Board may restrict these hours if it can be shown to be necessary for the promotion of the licensing objectives.

Earliest Opening Hour

Latest Terminal Hour

All off-sales premises

1000

2200

On-Sale Premises

The Board considers it appropriate to distinguish hours within the city centre from outlying areas. The city centre area is that shown delineated on the undernoted map.

The hours stated below are the earliest acceptable opening hour and latest acceptable terminal hour, and not the maximum permissible hours. The terminal hours stated below are the latest permissible and will not be appropriate for all premises. It will be the responsibility of the licence holder or applicant to demonstrate that the premises is suitable for the hours sought. Additional conditions will normally be added to all premises seeking licensed hours after 1am including but not limited to CCTV, door stewards and radiolink. A link to examples of the standard local conditions can be found in the Supplementary Policy on General Licensing Matters.

The Board considers 15 hours continuous trading to be reasonable within any 24-hour period and so the opening or terminal hour should be adjusted accordingly to comply with this requirement.

The opening hours for casinos remains in line with the statutory hours in terms of the Gambling Act 2005, namely 1200 – 0600 daily.

<u>Outwith City Centre</u>	<u>Earliest Opening Hour</u>	<u>Latest Terminal Hour</u>
Sunday to Thursday	1000	0000
Friday & Saturday	1000	0100

<u>City Centre</u>	<u>Earliest Opening Hour</u>	<u>Latest Terminal Hour</u>
Sunday to Thursday	1000	0200
Friday & Saturday	1000	0300

Supplementary Policy – External Drinking Areas

The Board recognises that the incorporation of outdoor areas within the licensed footprint of premises can enhance the operation of such premises but considers that it also attracts additional responsibilities on the part of the licence holder to uphold the licensing objectives.

Before an application to licence an outdoor area will be considered the area in question must benefit from the necessary planning permission and, if required, a pavement permit from the Roads Department of Aberdeen City Council.

All outdoor areas must be delineated on the layout plan forming part of the premises licence and outdoor drinking should be included as an activity within the body of the licence.

The Board will expect premises who currently utilise unlicensed outdoor areas to incorporate such areas within the premises licence by way of variation.

Applicants and licence holders must demonstrate that the areas will not contravene the licensing objectives, in particular with regard to noise, litter and antisocial behaviour. The areas must be regularly monitored, and glassware removed.

The Board will routinely attach additional conditions where an outdoor area is licensed including but not restricted to:

- Outdoor area to be clearly demarcated onsite.
- Use of the area to cease at 2200 hours.
- No amplified music or entertainment to take place in the outdoor area.

The terminal hour may be further restricted, and drinks may be required to be decanted into alternatives to glassware if appropriate.

6 CONDITIONS ATTACHING TO LICENCES

6.5 The Board has devised a number of local conditions which may be attached to

premises licences.

Duty of Care - It is a condition that the licence holder must have in place a duty of care policy to ensure a standard approach is taken when any patron appears to be displaying signs of excessive intoxication. The purpose of this policy is to reduce vulnerability through intoxication, however attained. All staff must have training in identifying signs of excessive intoxication and an enhanced awareness of vulnerability through intoxication. This should include use of material such as the 'Who are You' video (whoareyou.nz) or similar. All related training should be recorded and such records available for inspection by Police and Licensing Standards Officers.

Drugs Policy - It is a condition that the licence holder has in place and enforces the drugs policy formulated by Police and attached hereto and displays a notice to the effect that such a drugs policy is in operation at the premises.

CCTV

The licence holder shall provide sufficient internal and external CCTV coverage of the premises to meet the current technical requirements of the Police Service of Scotland as detailed in Aberdeen City Licensing Board's Statement of Licensing Policy.

Radio Link - It is a condition that the licence holder is a member of the local Radio link Scheme

This should include use of material such as the 'Who are You' video (whoareyou.nz) or similar. All related training should be recorded and such records available for inspection by Police and Licensing Standards Officers.

Drugs Policy - It is a condition that the licence holder has in place and enforces the drugs policy formulated by Police and attached hereto and displays a notice to the effect that such a drugs policy is in operation at the premises.

Door Supervisors - It is a condition that the licence holder will ensure that from 23:00 onwards they shall employ or use suitably licensed door supervisors at or near the entrance to, or within the premises, to maintain order and/or security and prevent patrons breaching the licensing objectives.

Radio Link - It is a condition that the licence holder is a member of the local Radio link Scheme

CCTV

The licence holder shall provide sufficient internal and external CCTV coverage of the premises to meet the current technical requirements of the Police Service of Scotland as detailed in Aberdeen City Licensing Board's Statement of Licensing Policy. (all off-sales are however exempt from 4.2 relating to lip sync capability at entrance and exit doors).

LICENSING BOARD INFORMATION SHEET

TYPE OF APPLICATION: VARIATION OF PREMISES LICENCE
PREMISES: ABERGELDIE BAR, 504 HOLBURN STREET, ABERDEEN

DESCRIPTION

- Variation to on consumption terminal hour on Friday and Saturday to 01:00.

OBJECTIONS/REPRESENTATIONS

- None

POLICY

Supplementary Policy – Licensed Hours

Whilst all applications will be dealt with on their own merits the Board considers it necessary for the promotion of the licensing objectives to set parameters with respect to licensed hours. Any application seeking hours outwith those detailed below will be expected to satisfy the Board that there are legitimate grounds for departing from policy and demonstrate that the granting of such hours would not be contrary to the licensing objectives.

On-Sale Premises

The Board considers it appropriate to distinguish hours within the city centre from outlying areas. The city centre area is that shown delineated on the undernoted map.

The hours stated below are the earliest acceptable opening hour and latest acceptable terminal hour, and not the maximum permissible hours. The terminal hours stated below are the latest permissible and will not be appropriate for all premises. It will be the responsibility of the licence holder or applicant to demonstrate that the premises is suitable for the hours sought. Additional conditions will normally be added to all premises seeking licensed hours after 1am including but not limited to CCTV, door stewards and radiolink. A link to examples of the standard local conditions can be found in the Supplementary Policy on General Licensing Matters.

The Board considers 15 hours continuous trading to be reasonable within any 24-hour period and so the opening or terminal hour should be adjusted accordingly to comply with this requirement.

The opening hours for casinos remains in line with the statutory hours in terms of the Gambling Act 2005, namely 1200 – 0600 daily.

<u>Outwith City Centre</u>	<u>Earliest Opening Hour</u>	<u>Latest Terminal Hour</u>
Sunday to Thursday	1000	0000
Friday & Saturday	1000	0100

<u>City Centre</u>	<u>Earliest Opening Hour</u>	<u>Latest Terminal Hour</u>
Sunday to Thursday	1000	0200

LICENSING BOARD INFORMATION SHEET

TYPE OF APPLICATION: VARIATION OF PREMISES LICENCE

PREMISES: AMUSEMENT PARK & CONGO ADVENTURE GOLF & BAR DINER,
QUEENS LINKS, BEACH BOULEVARD, ABERDEEN

DESCRIPTION

- Variation to on consumption opening hour on Sunday to 11:00.
- Incorporate additional external area into the licensed area.
- To increase on sales capacity from 1994 to 2264.
- Variation to layout plan.

OBJECTIONS/REPRESENTATIONS

- Police
- Member of the Public x1

The applicant has accepted the External Areas Conditions excluding the music condition. The applicant accepted to have an effective complaints procedure in place for dealing with any noise complaints as a condition.

POLICY

Supplementary Policy – Licensed Hours

Whilst all applications will be dealt with on their own merits the Board considers it necessary for the promotion of the licensing objectives to set parameters with respect to licensed hours. Any application seeking hours outwith those detailed below will be expected to satisfy the Board that there are legitimate grounds for departing from policy and demonstrate that the granting of such hours would not be contrary to the licensing objectives.

On-Sale Premises

The Board considers it appropriate to distinguish hours within the city centre from outlying areas. The city centre area is that shown delineated on the undernoted map.

The hours stated below are the earliest acceptable opening hour and latest acceptable terminal hour, and not the maximum permissible hours. The terminal hours stated below are the latest permissible and will not be appropriate for all premises. It will be the responsibility of the licence holder or applicant to demonstrate that the premises is suitable for the hours sought. Additional conditions will normally be added to all premises seeking licensed hours after 1am including but not limited to CCTV, door stewards and radiolink. A link to examples of the standard local conditions can be found in the Supplementary Policy on General Licensing Matters.

The Board considers 15 hours continuous trading to be reasonable within any 24-hour period and so the opening or terminal hour should be adjusted accordingly to comply with this requirement.

The opening hours for casinos remains in line with the statutory hours in terms of the Gambling Act 2005, namely 1200 – 0600 daily.

<u>City Centre</u>	<u>Earliest Opening Hour</u>	<u>Latest Terminal Hour</u>
Sunday to Thursday	1000	0200
Friday & Saturday	1000	0300

Preventing Public Nuisance

The Board believes that licensed premises have the potential to have a significant impact on communities. It wishes to maintain and protect the amenity of the surrounding neighbourhoods whilst recognising the valuable cultural and social aspects of such premises.

Whilst licensing powers are not the main statutory mechanism for dealing with public nuisance in general the Board will interpret public nuisance in a wider sense where it relates to the operation of licensed premises, and in particular issues such as noise and litter.

Again, a number of factors should be considered including, but not limited to:

- Location of premises. In particular the proximity to residential or noise sensitive premises such as medical facilities, sheltered housing, schools, places of worship, nurseries and suchlike.
- Hours of operation. Closely related to the location of the premises, the hours of operation should reflect what is appropriate for the surrounding neighbourhood. The terminal hours indicated in the Supplementary Policy on Licensed Hours are the maximum available and will not be suitable for all premises.
- Nature of activities. Any activities carried on in the licensed premises should not be detrimental to the ambience of the locality.
- Outdoor areas. The Board will include a Supplementary Policy on this issue, but applicants will require to ensure that the inclusion of an outdoor licensed area in any premises is appropriate and will not contravene the licensing objective of preventing public nuisance.
- Smoking areas. These should be designed to minimise public nuisance and regularly monitored to cut down on noise and litter.
- Noise from patrons entering and exiting the premises.

What the Board Will Do:

- Consider the proximity of proposed licensed premises to noise sensitive premises when considering applications.
- Ensure that licensed hours and activities are appropriate for the type of premises and locality. The terminal hours indicated in the Supplementary Policy on Licensed Hours are the maximum available and will not be suitable for all premises.
- Improve communication between the trade, partners and local communities.
- Impose additional licence conditions where appropriate to prevent public nuisance.
- Highlight best practice where available and increase awareness and education on potential areas of risk.

What the Board Will Expect of Licence Holders/Applicants:

- Take a proactive approach to public nuisance with a risk-based approach.
- Be mindful of the location of the premises, hours of operation and activities.

- Comply with all conditions of the premises licence.
- Ensure appropriate control measures are in place and staff training is up to date and relevant.
- Consider public nuisance when establishing the design and layout of the premises.
- Adequate supervision of any outdoor area, smoking area and patrons entering/exiting the premises.
- Sharing of best practice via trade groups.
- Participation in communication to resolve any issues that may arise.
- Co-operation with Police Scotland and Licensing Standards Officers including access to all relevant policies and procedures such as dispersal policies and incident management.

Supplementary Policy – External Drinking Areas

The Board recognises that the incorporation of outdoor areas within the licensed footprint of premises can enhance the operation of such premises but considers that it also attracts additional responsibilities on the part of the licence holder to uphold the licensing objectives.

Before an application to licence an outdoor area will be considered the area in question must benefit from the necessary planning permission and, if required, a pavement permit from the Roads Department of Aberdeen City Council.

All outdoor areas must be delineated on the layout plan forming part of the premises licence and outdoor drinking should be included as an activity within the body of the licence.

The Board will expect premises who currently utilise unlicensed outdoor areas to incorporate such areas within the premises licence by way of variation.

Applicants and licence holders must demonstrate that the areas will not contravene the licensing objectives, in particular with regard to noise, litter and antisocial behaviour. The areas must be regularly monitored, and glassware removed.

The Board will routinely attach additional conditions where an outdoor area is licensed including but not restricted to:

- Outdoor area to be clearly demarcated onsite.

- Use of the area to cease at 2200 hours.
- No amplified music or entertainment to take place in the outdoor area.

The terminal hour may be further restricted, and drinks may be required to be decanted into alternatives to glassware if appropriate.

Dear Sir/Madam,

**LICENSING (SCOTLAND) ACT 2005
APPLICATION FOR THE VARIATION OF A PREMISES LICENCE
CODONA'S AMUSEMENT PARK, BEACH BOULEVARD, ABERDEEN, AB24
5ED.**

I refer to the above variation of a premises licence in terms of Section 29(5) of the Licensing (Scotland) Act 2005.

The variation requested consists of amending the core hours of operation on a Sunday to start at 1100, to increase capacity to 2264 patrons and to include an additional outdoor area, as outlined on the premises plan submitted.

In terms of Section 29(5) this request can be considered a variation.

In terms of Section 22(1)(b)(ii) and (iii) of the same Act, I wish to make representation to the application and recommend the following conditions are imposed:

1. If not naturally bounded, the area to be delineated by a physical barrier or similar;
2. The area is subject to a terminal hour of 2200 hours daily;
3. No amplified music to be played within;
4. Signage to be displayed that no alcohol is to be removed from the area.

This representation is submitted for your attention when considering this application.

OFFICIAL

OFFICIAL

Yours faithfully

Kate Stephen
Temporary Chief Superintendent

For enquiries please contact the Licensing Department on 01224 304154.

Ref:AC0238

Hi,

if music dance and especially alcohol sales are allowed, young people will come here and cause a scene and disturb families with children who come to the beach. It will create noise and environmental pollution. Therefore, it will adversely affect the surrounding workplaces.

I request that no permission be granted.

Kind regards

Representation from Environmental Health

It is noted that this variation application includes the glazing of the structure at The Draft Project on Langstane Place.

This Service requested submission of a Noise Impact Assessment (NIA) resulting from consideration of planning application (210871/DPP), in order to address any potential noise breakout issues from use of this structure. The NIA report has been produced and subsequently reviewed by this Service. There are a number of issues in the report that require clarification or amendment.

Until such time as we are satisfied with the content of the report, I cannot give a definitive opinion on the suitability of this part of the variation application.

P8471	Page 4 of 56	Ethos Environmental Ltd
Langstane Place Aberdeen		Noise Impact Assessment
Tinto		February 2022

1.0 INTRODUCTION

At the request of Mr Richard Slater, Design & Delivery Lead, Tinto Architects, an environmental noise impact assessment has been undertaken at:

363 Union Street
ABERDEEN

The assessment has been carried out to ascertain what noise levels would be experienced at the nearest noise sensitive residences when the marquee is operating and to suggest mitigation measures should the levels indicate that they would be likely to result in an adverse noise impact.

The current background noise levels were measured at the one of the noise sensitive residences and an assessment was undertaken for the likelihood of complaints. This was done by comparing it with the information contained within PAN 1/2011.

This noise measurements were taken by Mr William Hay, Acoustic Technician and the assessment was undertaken by Mr Scott Carlin MIOA, Senior Acoustic Consultant, Ethos Environmental Ltd.

P8471	Page 5 of 56	Ethos Environmental Ltd
Langstane Place Aberdeen		Noise Impact Assessment
Tinto		February 2022

2.0 BACKGROUND & METHODOLOGY

2.1 Site Location

The site is located on Langstane Place, Aberdeen, between Union Street and Langstane Place. See Figure 1 below.

Draft Project Location

Noise sensitive receptors

The nearest noise-sensitive receptors are:

House on Bon Accord Terrace adjacent to Hardgate and Langstane Place (26 Bon Accord terrace and 33 Hardgate), southwest of the Draft Project
343 Union Street to the Northeast of the Draft Project
375 Union Street to the Northwest of the Draft Project.

The site location and proposed site layout is shown in Figure 1 below and in Appendix 2.

The measurement positions are shown in Figure 1 below and detailed as follows.

Sample Position 1: Inside the compound under the canopy of the Marquee
Sample Position 2: Inside the Marquee
Sample Position 3: Bon Accord Terrace at NSR

These were one-hour measurements; however they have been broken down into 5-minute measurements to identify particularly noisy events.

P8471		Ethos Environmental Ltd
Langstane Place Aberdeen	Page 6 of 56	Noise Impact Assessment
Tinto		February 2022

Figure 1: Location of the Draft Project and Receptor Locations

P8471	Page 7 of 56	Ethos Environmental Ltd
Langstane Place Aberdeen		Noise Impact Assessment
Tinto		February 2022

2.2 Assessment Strategy

The assessment strategy was agreed with the client and following discussions with an EHO representative of Aberdeen City Council. The objective is to assess the likelihood of complaints from the nearest noise-sensitive residences, considered to be the flats on Union Street (see [Figure 1](#)).

The Council identified the location of all the noise sensitive receptors to be considered in the assessment.

2.3 Methodology

Noise measurements from amplified music were taken from the Ethos Environmental Measurement Library. This amplified music was recorded at a Dance Studio and was dance music genre with an overall noise level of 90dB L_{Aeq} which is considered a level commensurate with a public house playing music.

The noise levels at the façade of the nearest noise sensitive residences are calculated by the CADNA A noise modelling software (see Appendix 3).

A background noise level was measured at the one of the noise sensitive receptors on Bon Accord Terrace. There are two additional receptors to the northwest and northeast on Union Street. All other surrounding properties are commercial businesses.

All measurements take due cognisance of information contained in BS7445: Part 1: 2003 Description and measurement of environmental noise - Guide to quantities and procedures and BS7445: Part 2: 1991 Description and measurement of environmental noise - Guide to the acquisition of data pertinent to land use.

2.4 Instrumentation

Measurements were taken with a Norsonic 140 and Norsonic 150 Class 1 integrating sound level meter and octave band analysers.

These meters satisfy BS EN 61672-1:2013 Electroacoustics. Sound level meters - Specifications.

P8471	Page 8 of 56	Ethos Environmental Ltd
Langstane Place Aberdeen		Noise Impact Assessment
Tinto		February 2022

3.0 DISCUSSION OF RESULTS

3.1 Environmental Conditions

Site assessment and monitoring was undertaken on the 16th of July 2021 between 1330 and 1700. The weather conditions were as follows:

Barometer - mb	1026.5
Temp - °C	11.4
Hum - %	86.4
Wind Speed - m/s	0.3
Wind Direction	NE
Rain - mm	0
Cloud Cover	3 octas

3.2 Monitoring Results

Monitoring was undertaken to establish the background noise level at one of the noise-sensitive receptors as well as some existing source measurements within the Draft Project public house.

These measurements are not used as the source measurements, as no amplified music was playing in the Draft Project at the time. Amplified dance music, taken from the Ethos Environmental Noise Library was used in the modelling and the noise levels plotted to the nearest noise sensitive receptors, which are:

- 343 Union Street
- 375 Union Street
- House on the corner of Hardgate and Bon Accord Terrace.

The current opening times of the public house are as follows:

Mon - Thurs: 4-10pm
Fri, Sat & Sun: 12-10pm

The results from source monitoring are presented in Table 1 below.

P8471	Page 9 of 56	Ethos Environmental Ltd
Langstane Place Aberdeen		Noise Impact Assessment
Tinto		February 2022

Table 1: Source Noise Measurements

Measurement Type	Location ¹	Duration	Run Time	Average Noise Levels L _{Aeq} dB	Maximum Noise Level L _{Amax} dB
Source – Position 1	Southwest of Bar – Under external canopy	1 hour	1712 to 1810	60.2	81.4
		1 hour	2054 to 2153	74.8	90.1
		1 hour	2215 to 2314	62.0	84.3
		1 hour	1108 to 1207	61.9	83.2
Source – Position 2	Northwest of Bar – Under external canopy	1 hour	1711 to 1809	62.1	81.2
		1 hour	2054 to 2152	80.8	92.7
		1 hour	2215 to 2314	60.1	84.4
		1 hour	1108 to 1207	56.3	83.7
Noise Sensitive Receiver – Position 3	Bon Accord Terrace at Hardgate and Langstane Place	0.5 hours	2347 to 0021	63.9	86.1
				Background L _{A90} dB	49.1

¹ for activities during measurements see Table 4 below.

Table 2 details the L_{Aeq,5min} inside the Draft Project when operational. This parameter is used to highlight periods of particular higher noise levels by patrons.

Table 2: Average Source Noise Measurements (L_{Aeq,5min})

Measurement Type	Location ¹	Duration	Time of Measurement	Average Noise Levels L _{Aeq} dB
Source – Position 1	Southwest of Bar – Under external canopy	5mins	1810	62.2
		5mins	2137	80.8
		5mins	2254	59.1
		5mins	1207	56.4
Source – Position 2	Northwest of Bar – Under external canopy	5mins	1802	60.3
		5mins	2059	74.6
		5mins	2220	61.9
		5mins	1207	62.3

Table 3 below shows the maximum measured 5-min L_{Aeq} dB for all the measurements.

Table 3: Maximum Source Noise Measurements (L_{Aeq,5min})

Measurement Type	Location ¹	Duration	Time of Measurement	Average Noise Levels L _{Aeq} dB
Source – Position 1	Southwest of Bar – Under external canopy	5mins	1810	65.2
		5mins	2137	81.6

P8471	Page 10 of 56	Ethos Environmental Ltd
Langstane Place Aberdeen		Noise Impact Assessment
Tinto		February 2022

The bar's capacity is set at 342 persons. The monitoring undertaken was for 74 people (81.6 $L_{Aeq,5min}$ dBA). The worst-case noise level for maximum capacity is therefore calculated to be:

$L_{Aeq,5min}$ of 88.2 dB

This has been factored into the noise levels associated with the model by combining the 88.2dBA with the 96.0dBA associated with the music to produce a worst case noise level of 96.7dBA within the Marquee.

Table 4: Activities Being Undertaken During Monitoring

Measurement	Time	Activities Undertaken
Source Measurements	03/09/21 1700 to 1800	17:10 – 6 customers in bar 17:30 - 6 customers in bar Noise mainly from flooring from people walking about, various traffic noises, nothing of note.
	03/09/21 2100 to 2200	Approx. 74 people in marquee at start of measurement, low drone of plant noise from behind bar, all internal noise from customers talking/moving about, TVs on but on mute. Approx. 94 people at 21:15, down to approx. 62 at 21:49 External noise (NOR150) mainly from traffic and noise from Prohibition Nightclub on Langstane place
	03/09/21 2215 to 2314	Inside noise mainly from staff cleaning up Outside noise from traffic, music/public at Prohibition Nightclub, various instances of cars with big exhausts revving in street going past nightclub. Mr Brightside played at 22:27 from nightclub across the street perfectly audible inside marquee.
	04/09/21 1110 to 1210	No customers in bar after opening at 12 Light rain/drizzle, some traffic noise, most internal noise from staff moving about getting ready to open. Various instances of power tool use from Langstane Place, unsure of exact location, resembled oscillating multi-tool cutting plastic pipe. Loud noise at 12:05 on NOR150 is manager opening main roller-shutter entrance door to street
Receiver – Bon Accord Terrace.	06/10/21 2347 to 0021	Traffic on Union Street and Bon Accord Terrace. Overflowing drain halfway down street causing running water sound.

The modelled levels around the Marquee are presented in Tables 5 and 6 below. These modelled measurements assume that the Marquee south wall will be improved with Perspex to the roof level and 4mm glass to the bottom section. It also assumes that amplified music will not be played in excess of 96dBA.

P8471	Page 11 of 56	Ethos Environmental Ltd
Langstane Place Aberdeen		Noise Impact Assessment
Tinto		February 2022

At present the site has doors which remain open, as such the noise levels have been modelled with doors open and closed. These are presented in Tables 5 and 6 below.

The modelled noise levels with the doors open are presented in Table 5 below.

Table 5: Modelled Noise Level – Doors Open

Measurement Type	Location	Activity	Noise Level dB
Modelled	Bon Accord Street & Langstane Place	Music playing in Draft Project at 96dBA including the noise level from 342 persons (88.7dBA) which equals 96.7dBA	50.4
Modelled	Rear Façade of 343 Union Street		59.5
Modelled	Rear Façade of 375 Union Street		56.1
Modelled	Pavement Outside Draft Project		70.9
Modelled	Pavement Across Street from Draft Project		67.2
Modelled	Bon Accord Terrace		47.9

Noise levels with the doors (to Langstane Place) closed are presented in Table 6 below.

Table 6: Modelled Noise Level – Doors Closed

Measurement Type	Location	Activity	Noise Level dB
Modelled	Bon Accord Street & Langstane Place	Music playing in Draft Project at 96dBA including the noise level from 342 persons (88.7dBA) which equals 96.7dBA	23.6
Modelled	Rear Façade of 343 Union Street		45.6
Modelled	Rear Façade of 375 Union Street		44.1
Modelled	Pavement Outside Draft Project		47.6
Modelled	Pavement Across Street from Draft Project		47.2
Modelled	Bon Accord Terrace		20.9

As the modelled noise levels are below the background levels, considered to be representative of the rear of Union Street, this is a good indication that noise levels from the Draft Project are unlikely to be heard at these locations with the doors closed.

3.3 Noise Rating Assessment

In order to assess the impact of the noise from the Draft Project, the modelled noise levels were compared against the measured background noise level. A noise level 10dB below the background noise level is an indication that the noise will be inaudible at the nearest residences.

Table 7 below details the noise levels used for the noise impact assessment.

Table 7: Modelled Noise Level Used in Impact Assessment

Location	Modelled Levels		Measured Background L _{A90} dB
	Doors Open Noise Level dBA	Doors Closed Noise Level dBA	
Rear Façade of 343 Union Street	59.5	45.6	49.1 ¹
Rear Façade of 375 Union Street	56.1	44.1	
26 Bon Accord Terrace	47.9	20.9	

3.4 Noise Impact Assessment

3.4.1 Stage 1: Sensitivity

The nearest noise sensitive receptors are (see Figure 1):

NSR Position 1: House on Bon Accord Terrace adjacent to Hardgate and Langstane Place (26 Bon Accord terrace and 33 Hardgate), southwest of the Draft Project

NSR Position 2: 343 Union Street to the Northeast of the Draft Project

NSR Position 3: 375 Union Street to the Northwest of the Draft Project

If we look at the assessment of how the source noise level will compare against background noise levels, we can see the modelled levels will be well above the background levels when the doors to the Draft Project are open and below the background noise level when the doors are closed.

¹ Background noise level L_{A90} dB was measured at Bon Accord Terrace, far away from the noise from the club.

P8471	Page 13 of 56	Ethos Environmental Ltd
Langstane Place Aberdeen		Noise Impact Assessment
Tinto		February 2022

However, in assessing the impact of an amplified music source affecting residential dwellings the residences would mostly be classed as highly sensitive.

3.4.2 Stage 2: Quantitative Assessment

The estimate of the magnitude of the noise impact is calculated from the estimate of the change in noise level at the nearest noise sensitive residence with amplified music playing and not playing.

It should be noted that the modelled levels are for the worst-case scenario of the Draft Project being at capacity (342 persons) and highest levels of amplified music playing.

Table 8: Difference of Modelled Levels to Measured Background

Location	Modelled Levels		Measured Background	Difference Against Background with Doors Open (dB)	Difference Against Background with Doors Closed (dB)
	Doors Open Noise Level dBA	Doors Closed Noise Level dBA			
Rear Façade of 343 Union Street	59.5	45.6	49.1	10.4	-3.5
Rear Façade of 375 Union Street	56.1	44.1		7	-5
26 Bon Accord Terrace	47.9	20.9		-1.2	-28.2

As can be seen from Table 8 above, with the doors to the Draft Project open, the modelled noise levels at the properties on Union Street will be above the background levels assuming an internal music source of 96dBA and worst case situation of a full capacity of 342 persons.

The attenuation of an open window will afford 12dB² attenuation (worst case)³ which will decrease the impact of the noise level within the bedrooms of the NSRs.

² NANR116: 'Open/Closed Window Research' Sound Insulation Through Ventilated Domestic Windows - The Building Performance Centre, School of the Built Environment, Napier University

³ The current windows are likely to be sash and case, the attenuation is likely to be 14dB, however as a worst-case scenario we have assumed 12dB.

Table 9: Difference of Modelled Levels in Bedrooms to Levels in BS8233

Location	Modelled Levels		BS8233 ⁴	Difference Against BS8233 with Doors Open (dB)	Difference Against BS8233 with Doors Closed (dB)
	Doors Open Internal Noise Level dBA	Doors Closed Internal Noise Level dBA	Levels in Bedrooms for Sleep		
Rear Façade of 343 Union Street	47.5	33.6	35.0*	+12.5	-1.4
Rear Façade of 375 Union Street	44.1	32.1		+9.1	-2.9
26 Bon Accord Terrace	35.9	8.9		+0.9	-26.1

* This level has been selected over the recommended 30dB levels due to the high background noise within the area, the noise level attributed to background noise with an open window would result in an internal noise level of 37dB.

The assignment of the magnitude is provided in Table 10 below.⁵

Table 10: Assigning Magnitudes of Noise Impact

Magnitude	Difference over Background Noise dB
Major	≥10
Major/Moderate	8 to 9.9
Moderate	6 to 7.9
Moderate/Marginal	4 to 5.9
Marginal	2 to 3.9
Marginal/Minor	0 to 1.9
Minor	0
Minor/Negligible	-2.0 to -0.1
Negligible	-4.0 to -2.1
Negligible /No Change	-6 to -4.1
No Change	-10 to -6.1

The magnitude of the noise impact at the façades of the NSRs for the doors being open and closed are presented in Table 11 below.

Table 11: Assessment of Magnitude at Façades

Location	Difference Against Background with Doors Open (dB)	Magnitude of Impact for Doors Open	Difference Against Background with Doors Closed (dB)	Magnitude of Impact for Doors Closed
Rear Façade of 343 Union Street	+10.4	Major	-3.5	Negligible
Rear Façade of 375 Union Street	+7.0	Moderate	-5	Negligible /No Change
26 Bon Accord Terrace	-1.2	Minor/Negligible	-28.2	No Change

⁴ BS8233:2014 Guidance for Sound Insulation and Noise Reduction in Buildings

⁵ Taken from Table 3.4 in the Technical Advice Note issued under PAN 1/2011

P8471	Page 15 of 56	Ethos Environmental Ltd
Langstane Place Aberdeen		Noise Impact Assessment
Tinto		February 2022

The magnitude of impact for the internal rooms of the NSRs facing the Draft Project are presented in Table 12 below. This impact assumes a 12dB attenuation from an open window.

Table 12: Assessment of Magnitude Inside NSRs

Location	Difference Against BS8233 with Doors Open (dB)	Magnitude of Impact for Doors Open inside NSRs	Difference Against BS8233 with Doors Closed (dB)	Magnitude of Impact for Doors Closed Inside NSRs
Rear Façade of 343 Union Street	+12.5	Major	-1.4	Minor/ Negligible
Rear Façade of 375 Union Street	+9.1	Major/ Moderate	-2.9	Negligible
26 Bon Accord Terrace	+0.9	Marginal/ Minor	-26.1	No Change

3.4.3 Stage 3: Qualitative Assessment

The Draft Project is held within a Marquee consisting of 4mm toughened glass panels (see Appendix 5) throughout the Marquee and on the doors.

The doors seemed to remain open during the measurements, however this may have been during the summer months where the structure would get warm. Currently, the entrance doors on Langstane Place are shielded behind a wooden hoarding on the east side and a stone wall on the west. Patrons enter through a roller door to the marquee behind.

The wall and the hoarding act as barriers to the noise to a degree and reduce the breaking onto Langstane Place. The east and west of the site is bounded by stone walls which direct the sound vertically.

According to the register of Council tax, there are two residences on Union Street to the northeast and northwest of the site of the Draft Project. These are flatted dwellings which extend up to a height of approximately 12m.

The area is dominated by traffic movement on Union Street, Bon Accord Terrace and on Bon Accord Street, which continue to be busy during the evening hours and as such the noise climate is continuously dominated by traffic movements, resulting in high background and ambient noise levels.

The modelled worst case noise levels at the NSRs are in excess of the background noise levels with the doors to the Draft Project remaining open. This is primarily due to the number of reflective surfaces around where the Draft Project is located.

P8471	Page 16 of 56	Ethos Environmental Ltd
Langstane Place Aberdeen		Noise Impact Assessment
Tinto		February 2022

With the doors closed, and assuming these are airtight and constructed of a minimum of 4mm toughened glass, the noise levels at the noise sensitive receptors are below the background noise level.

It should be noted that an open window will provide 12dB of attenuation to noise which will further reduce the impact of the site when considering the noise level within the bedrooms of the NSRs. The noise levels within the bedrooms are compared against the values an internal noise level for resting of 35dB. The night sleeping level in BS8233 is stated as 30dB, however, given the external background noise levels and that the flats are located on Union Street, the noise levels with the windows open are likely to exceed 30dB.

As discussed, the model has been run with the worst-case noise levels, which is the Marquee at capacity (342 persons) and amplified music playing in the background at 96dBA.

Internal noise levels have been modelled to determine what level the interior of the Draft Project would need to be at or below in order to ensure that the noise levels were 10dB below background (as specified by the Aberdeen City Council EHO department) with the doors to the Marquee open.

3.4.4 Stage 4: Level of Significance

The level of significance is presented in Table 13 below.

Table 13: Level of Significance⁶

Magnitude of Impact* (After – Before) dB	Sensitivity of Receptor based on Likelihood of Complaint		
	Low	Medium	High
Major	Very Large	Very Large/ Extremely Large	Extremely Large
Major/Moderate	Large/Very Large	Very Large	Very Large/ Extremely Large
Moderate	Large	Large/Very Large	Very Large
Moderate/Marginal	Moderate/Large	Large	Large/Very Large
Marginal	Moderate	Moderate/Large	Large
Marginal/Minor	Slight/Moderate	Moderate	Moderate/Large
Minor	Slight	Slight/Moderate	Moderate
Minor/Negligible	Negligible/Slight	Slight	Slight/Moderate
Negligible	Negligible	Negligible/Slight	Slight
Negligible /No Change	Neutral/Negligible	Negligible	Negligible/Slight
No Change	Neutral	Neutral/Negligible	Negligible

(* see Table 10 above)

⁶ This table is based upon the BS4142 system which states that a noise level 10dB below the background is positive evidence that complaints are unlikely. Levels 10dB above background will almost always result in complaints.

The level of significance of the NSRs around the Draft Project is presented in Table 14 below.

Table 14: Level of Significance of NSRs at the Façade

Location	Level of Significance for Doors Open	Level of Significance for Doors Closed
Rear Façade of 343 Union Street	Extremely Large	Slight/Moderate
Rear Façade of 375 Union Street	Very Large	Negligible/Slight
26 Bon Accord Terrace	Slight/Moderate	Negligible

Assuming a noise level of 96dB playing when the Draft Project is at full capacity of 342 persons, the noise level inside will be 96.7dBA. This will present a large/very large level of significance to the two properties on Union Street when the doors to the Draft Project are open. When they are closed, the impact is reduced to slight.

If we examine the noise levels within the rooms of the NSRs facing the Draft Project and assuming that the open window will afford an attenuation of 12dB, the level of significance is presented in Table 15 below.

Table 15: Level of Significance of NSRs within Rooms

Location	Level of Significance for Doors Open	Level of Significance for Doors Closed
Rear Façade of 343 Union Street	Extremely Large	Slight/Moderate
Rear Façade of 375 Union Street	Very Large/ Extremely Large	Slight
26 Bon Accord Terrace	Moderate/Large	Negligible/Slight

The noise levels at inside the bedrooms are likely to meet the 35dB for daytime resting as stated in BS8233. This figure has been selected due to the fact that the noise levels within the properties, currently exceed the 30dB level (stated for night-time sleeping detailed in BS8233) with the windows open, due to the existing background noise levels.

3.4.5 Conclusion

The model has been run with the walls of the marquee being constructed of 4mm toughened glass, all with an airtight seal. The roof is constructed of 4mm perspex, also with an airtight seal.

When the Draft Project is at full capacity and music is played at 96dBA, the noise levels experienced at the façade of the residential premises on Union Street to the north, will not be 10dB below background noise (343 Union Street and 375 Union Street – see Table 11). However, the noise level at the façade of the NSRs will be below the background noise level with the Draft Project’s doors closed.

In order to achieve a level of 10dB below background noise levels at the rear façade of the residential premises with the doors closed, the noise level within the Draft Project must not exceed 83dBA.

It should be noted that the doors were observed to be open in the summer months. It may be possible to operate the Draft Project with the doors open, however the internal noise levels would need to be carefully controlled.

Should the Draft Project wish to operate with the doors open (e.g. during the summer months), in order for the noise level at the rear façade of the residential properties on Union Street to be acceptable (i.e below background noise level), the noise level within the Draft House must not exceed 86dBA. Should it be required to be at least 10dB below background noise level at the façade, then the noise level must not exceed 77dBA which is only slightly higher than current measured noise levels.

Keeping the Draft Project’s doors closed will significantly reduce the noise impact of the premises, as such a two-door system which minimises the amount of time the doors remain open will assist in reducing this impact.

Assuming the entire Marquee is constructed with 4mm toughened glass, including the doors and the building is airtight with no gaps to allow the passage of sound, and a solution can be found to keep the doors closed (e.g. double door system) when entering and leaving the premises, the Draft Project should not present a noise nuisance. An appropriate noise control system would need to be devised to ensure that the noise levels are controlled where the doors are to be left open.

P8471	Page 19 of 56	Ethos Environmental Ltd
Langstane Place Aberdeen		Noise Impact Assessment
Tinto		February 2022

3.5 Uncertainty

The excess of the residual noise level over the modelled noise level is significantly large to allow for higher noise levels to be played within the Draft Project and as such, the uncertainty of the measurement is unlikely to have any influence on the determination of the sensitivity of the property.

The background noise level was taken at Bon Accord Terrace, as no representative background noise could be taken at the NSRs. This is deemed to be of little effect to the overall uncertainty.

P8471		Ethos Environmental Ltd
Langstane Place Aberdeen	Page 20 of 56	Noise Impact Assessment
Tinto		February 2022

4.0 CONCLUSION & RECOMMENDATIONS

4.1 General

The noise level increase by the Draft Project playing amplified music within their premises is unlikely to have an adverse noise impact in the nearest noise sensitive residences considered to be:

Rear Façade of 343 Union Street
Rear Façade of 375 Union Street
26 Bon Accord Terrace

This is assuming that a mechanism for the doors to remain closed is developed and the entire structure is constructed of at least 4mm toughened glass in airtight seals.

The noise levels were modelled at 96.7dBA as this is considered an appropriate level from amplified music from a public house venue and a capacity of 342 persons. In order to play this music, a two-door system will need to be implemented to ensure that the doors do not remain open.

Should the doors wish to remain open (e.g. in the summer months), in order for the noise level at the façade of the properties on Union Street to be below background, the noise level inside the Draft Project must not exceed 86dBA.

In order for the the noise level to be 10dB below the background at the façade of the properties on Union Street, the noise level within the Draft Project would need to be below 77dBA.

4.2 Noise Management Plan

In order to further ensure that the Draft Project does not create a noise nuisance to the nearest noise sensitive receptors, a noise management plan is proposed to assist management control the noise levels within the bar and external areas.

This system will utilise the LiveNoise LNT-320 Noise Processor connected via WiFi and will include three processors with accompanying logging modules.

These units will be located within the marquee, 1no at either end, mounted internally on the north and south gables, and a third mounted centrally within the space. All processors will be mounted at high level, adjacent to the external fabric of the marquee.

P8471	Page 21 of 56	Ethos Environmental Ltd
Langstane Place Aberdeen		Noise Impact Assessment
Tinto		February 2022

The noise processors and logging modules will communicate continuously with the LiveNoise Supervisor software to provide real-time noise levels, store long-term noise measurements and signal high-noise alarms. All managers of the premises will have access to the LiveNoise Supervisor software so that they are notified of alarms and can access live and historic noise data. Alerts can be provided so that management can make realtime decisions regarding noise within the establishment (see Appendix 8 for Noise Management Plan).

Tinto		February 2022

Appendix 1 Glossary of Terms

The following terminology is employed in this report:

L_{Aeq}: The continuous equivalent noise level, L_{Aeq}, of a time-varying noise; the steady noise level (in dB(A)) which, over the period under consideration, contains the same amount of (A-weighted) sound energy as the time-varying noise over the same period.

A-Weighted: The A in dB(A) refers to the A-weighted sound pressure level of the noise in decibels. A-weighting is obtained through the use of a filter in the sound level meter which is designed to produce the relative response of the human ear to sound at different frequencies.

Specific Noise Source: The noise source under investigation for assessing the likelihood of complaints.

Background Noise Level (L_{A90}): The A-weighted sound pressure level of the residual noise at the assessment position that is exceeded for 90% of a given time interval, T, measured using time weighting, F, and quoted to the nearest whole number of decibels.

Residual Noise: The ambient noise remaining at a given position in a given situation when the specific noise source is suppressed to a degree such that it does not contribute to the ambient noise.

Ambient Noise: Totally encompassing sound in a given situation at a time usually composed of sound from many sources near and far.

30th March 2022

Noise Management Plan - Draft Project, 363 Union Street, Aberdeen

The following Noise Management Plan is based on the supporting information contained in Technical Report P8471 prepared by ethosenvironmental dated February 2022.

The venue will operate within the noise levels as noted within report P8471.

In order to operate within those noise levels, the following procedures will be put in place and implemented continually by the venue owner and their management team.

1. SITE DESCRIPTION

The premises are known as 'THE DRAFT PROJECT' of Aberdeen. The property fronts onto the pavement adjoining Langstane Place, and is located on the site of a former Bruce Miller music shop. The frontage of the shop has been retained onto Union Street and is not part of this venue.

Immediately adjacent to the premises are a mix of rear entrances to restaurants, arts/retail units at ground floor level, with various property types located on the first floor neighbouring property. There are further residential properties to upper floors on Union Street. These are considered to be most at risk of noise disturbance from the operations of the premises.

2. INTENDED USE OF THE PREMISES

It is anticipated that the premises will be operated as a 'ruined pub' and will be licensed to sell alcohol. All ruin pubs strive for a welcoming, low key atmosphere, where patrons can come and have a quiet beverage and chat.

3. MANAGEMENT POLICIES & PROCEDURES TO CONTROL NOISE

A) INTRODUCTION

The venue is committed to developing and maintaining good relations with local residents, businesses, neighbours and the local authority. The objective of this plan is to minimise disturbance to local residents and to ensure that any relevant licensing conditions and objectives or other controls at the venue are being upheld. This plan sets out the measures which will be adopted.

B) GENERAL

The premises will be open to the public between the hours as agreed within the venue licence. A minimum of four members of staff will be on the premises at all times; this allows one member of staff to manage the bar, whilst the others manage the customers.

Customers will not be admitted to premises outside of opening hours. There shall be no re-admission to the premises 15 minutes before closing.

Customers will be permitted to use the outdoor space to the south of the marquee, adjacent to Langstane Place, if they wish to smoke. This will give door staff visibility on the numbers gathered and allow constant monitoring. To prevent unsatisfactory numbers gathering in the smoking area, staff will make requests for customers to return inside, or move on to another establishment. Steps will be taken to educate regulars on the limited area for smokers.

C) DISPERSAL OF CUSTOMERS

Staff will actively encourage the gradual dispersal of customers at closing time to minimise nuisance to the surrounding properties.

During the last 20 minutes of trading the following strategies will be implemented to encourage the gradual dispersal of customers. These include the gradual increase in ambient lighting levels and playing of music of slower content and reduced volume. Music will stop playing 5 minutes before the closure of the premises.

Customers shall not leave the premises other than by the doors to the Langstane Place frontage of the premises. A member of staff will be positioned in an area close to this exit to oversee the end of night departure period. Customers will be encouraged to be considerate of their behaviours/noise levels while leaving the premises. Customers will be asked not to stand around talking loudly in the street immediately outside the premises.

D) PROVISION OF MUSIC/ SOUND

The provision of background music shall be permitted at any time the premises is open to the public. By definition this is music or other audio played whose main function is to

create an atmosphere suitable to a specific occasion rather than to be listened to and is incidental to speech and conversation.

Televised sporting events will be shown from time to time.

E) NOISE MONITORING

Due to the 'open' nature of the venue and having regard to the amenity of surrounding noise sensitive properties, the following noise monitoring procedure is proposed.

The noise levels within the venue have been assessed on a maximum capacity of 342 patrons. The management will control this number in accordance with their licensing requirements. In practice it is unlikely that this number of patrons will be within the venue at any one time.

The speakers within the premises are located centrally within the marquee. Noise monitoring equipment will be located inside the marquee at the Union Street gable & Langstane Place gable to give a consistent reading that can be interpreted without direct influence from the speakers.

The noise monitoring equipment used will be LiveNoise LNT-320 Noise Processor with WiFi and Ethernet. 3no. processors and accompanying logging modules will be located within the marquee. 1no at either end, mounted internally on the north and south gables, and a third mounted centrally within the space. All processors will be mounted at high level, adjacent to the external fabric of the marquee.

The noise processors and logging modules will communicate continuously with the LiveNoise Supervisor software to provide real-time noise levels, store long-term noise measurements and signal high-noise alarms. All managers of the premises will have access to the LiveNoise Supervisor software so that they are notified of alarms and can access live and historic noise data.

During normal daytime working of the premises, the entrance doors will remain open, subject to the following procedures. The management will review the measurements from the noise monitoring equipment on an hourly basis to ensure that the noise levels stay within the parameters set out in report P8471. In accordance with the report the doors may remain open provided the noise level does not exceed 77dBA. Should the noise monitoring disclose that the noise level has exceeded 77dBA, the premises manager must either close the doors or reduce the noise level to at or below 77dBA. This reduction may be achieved by either reducing the background music or sounds and/or reducing the numbers of patrons within the venue.

When the doors are closed, the maximum noise level must not exceed 83dBA. The premises manager will continue to monitor measurements from the noise monitoring

equipment on an hourly basis and will ensure that the noise levels do not exceed the aforementioned level. Should noise levels exceed 83dBA, the premises manager will take action to reduce noise levels to at or below the specified threshold, either by reducing the background music/ sounds and/or controlling the number of patrons within the venue.

The LiveNoise Supervisor software will act as a 'noise log book' which will be accessible anywhere via internet connection, and will maintain a live log of the noise levels and times. This will be made available for inspection by the Local Authority upon request. This software will provide management with live notification of incidents of the noise level reaching 77dBA. At that point management will take action to address the number of patrons, close the doors or adjust background noise to address the issue as quickly as possible. A second notification point will be set within the software to take account of the situation where the doors are closed and the noise level could be higher than 77dBA. The management team will therefore be alerted where the noise level reaches 83dBA. Management will then take any further action to address the potential issue by reducing patron numbers or reducing the background music noise level.

The number of patrons in the venue at any one time will be monitored by door staff with 'in' and 'out' click counters. This number can then be assessed by the management staff before implementing actions to address a noise issue.

F) TRAINING

All staff will be made fully aware and conversant with the noise management policy and procedures. Managers will be trained in the use of the noise monitoring software, and the actions open to them in order to address an issue. Managers will also be trained on how to operate the noise monitoring equipment.

G) PROVISION OF INFORMATION

Notices will inform customers of the venue's commitment to respecting the amenity of neighbouring properties.

Prominent, clear and legible notices will be displayed at the exits requesting that the public respect residents and leave the premises and the area quietly.

H) PREMISES

The premises have been designed in a manner which creates a unique venue in the city centre, with consideration having been given to its ability to operate in a manner which does not give rise to disturbance. The controls and limitations of the venue are reflected in this noise management plan.

Management will consider carefully the issue of thermal comfort during the operation of the venue, particularly during summer. Plans will be implemented to control the temperature in the venue to allow the public and staff to open doors to assist in cooling. In this situation where natural cooling is required the management staff will act as noted above to reduce noise levels in line with requirements. This will mean keeping the doors open and reducing background music and limiting patron numbers. No plans to install an air conditioner are intended.

No significant structural alterations shall be made to the premises without due consideration of its potential impact on noise management.

K) PROCEDURAL

This noise management plan is to be considered as a live document and will be reviewed by the owners and their management team annually to ensure that it is meeting its stated objective.

Richard Slater
on behalf of TINTO Architecture & PB Devco

This page is intentionally left blank

The above application was considered before the Licensing Board at their meeting on 30th November 2021.

A Noise Impact Assessment had been submitted in relation to the steel and glazed structure, The Draft Project.

At the time, this Service was unable to provide a definitive view on the Assessment as there were a number of issues still to be clarified to our satisfaction.

The Board consequently deferred consideration of the application.

The proposal has now received planning permission(210871) and conditions have been attached to address noise issues, namely:-

That the use of the marquee as a public house shall not take place unless:

A) there is in place and fully operational an automated noise management system to ensure that music noise levels within the structure do not exceed 77dBA, in accordance with details that are submitted to, and approved writing by, the planning authority; and,

B) that the marquee shall be constructed fully in accordance with the approved drawing reference 3758 PL(00)001 D including two sets of doors, and elevated only in fully sealed 4mm poly glass and glass as indicated on drawing 3758-PL(00)001D), unless materials with equal or improved noise insulating properties are otherwise agreed in writing with the planning authority.

However, the agreed control level (77dBA) is only considered acceptable based on the background levels in the Assessment of up to 1am.No calculation for later than this time has been included.

Thereafter it is likely that background noise levels will decrease and the noise from amplified music/entertainment within Draft Project become more prominent.

Therefore, in order to minimise the potential for noise nuisance, it is recommended that:-

- 1) the conditions above attached to the planning permission are applied to this Licence, and
- 2) the use of amplified music /entertainment within Draft Project ceases at 1am.

Best wishes,

Andrew Gilchrist | Principal Environmental Health Officer

LICENSING BOARD INFORMATION SHEET

TYPE OF APPLICATION: VARIATION OF PREMISES LICENCE

PREMISES: FOUR MILE INN, INVERURIE ROAD, BUCKSBURN, ABERDEEN

DESCRIPTION

- Variation to allow outdoor drinking facilities prior to core licensed hours for serving breakfast, light refreshment and other permitted activities.
- To extend the rear outdoor drinking area.
- To amend the times and areas children and young persons are permitted access.
- Increase of on sales capacity from 320 to 464.
- Variation to layout plan.

OBJECTIONS/REPRESENTATIONS

- None

The applicant has accepted the External Areas Conditions.

POLICY

Protecting Children and Young Persons from Harm

The Board recognises that the question of access to licensed premises by children and young persons is not one that can be answered with a one size fits all type of approach. The suitability of premises will depend on a number of factors including layout of the premises, activities or services available, and typical customer demographic.

Applicants and licence holders should also be aware that access for children and young persons will bring with it additional responsibilities and may result in additional conditions being attached to the licence.

What the Board Will Do:

- Assess all applications for suitability of access for children and young persons.
- Impose additional conditions where necessary to protect children and young persons from harm.
- Limit the hours during which children and young persons have access if appropriate.
- Limit activities which may take place on the licensed premises during hours in which children and young persons have access if appropriate.

What the Board Will Expect of Licence Holders/Applicants

- Consider the ambience of premises and what is appropriate in terms of children and young persons' access.
- Ensure facilities are appropriate to the areas of the premises to which children and young persons are to be afforded access.
- Vigilance against underage drinking and proxy purchasing.
- Strict enforcement of Challenge 25.
- Comprehensive and up to date staff training.

Restrict access for children and young persons to appropriate hours and parts of the premises

Supplementary Policy – External Drinking Areas

The Board recognises that the incorporation of outdoor areas within the licensed footprint of premises can enhance the operation of such premises but considers that it also attracts additional responsibilities on the part of the licence holder to uphold the licensing objectives.

Before an application to licence an outdoor area will be considered the area in question must benefit from the necessary planning permission and, if required, a pavement permit from the Roads Department of Aberdeen City Council.

All outdoor areas must be delineated on the layout plan forming part of the premises licence and outdoor drinking should be included as an activity within the body of the licence.

The Board will expect premises who currently utilise unlicensed outdoor areas to incorporate such areas within the premises licence by way of variation.

Applicants and licence holders must demonstrate that the areas will not contravene the licensing objectives, in particular with regard to noise, litter and antisocial behaviour. The areas must be regularly monitored, and glassware removed.

The Board will routinely attach additional conditions where an outdoor area is licensed including but not restricted to:

- Outdoor area to be clearly demarcated onsite.
- Use of the area to cease at 2200 hours.
- No amplified music or entertainment to take place in the outdoor area.

The terminal hour may be further restricted, and drinks may be required to be decanted into alternatives to glassware if appropriate.

LICENSING BOARD INFORMATION SHEET

TYPE OF APPLICATION: VARIATION OF PREMISES LICENCE

PREMISES: LORD BYRON, BYRON SQUARE, ABERDEEN

DESCRIPTION

- Variation to amend the description of the premises licence to reflect, "The premises are a standalone property located in a shopping precinct which is within a housing estate. The premises comprise public bar, lounge bar, pool/function room/general area, kitchen and general facilities required for the public house with a manager's office. The premises are located across one level and have an external licensed area. The premises are located within a mixed domestic and commercial area in Byron Square, Aberdeen".
- To allow outdoor drinking facilities during core licensed hours.
- Amendment to the areas children and young persons are permitted access.
- Variation to operating plan.
- Variation to layout plan.

OBJECTIONS/REPRESENTATIONS

- None

The applicant has accepted the External Areas Conditions.

- To include alcohol and food delivery with takeaways.

OBJECTIONS/REPRESENTATIONS

- None

The applicant has agreed to the imposition of Delivery Driver Conditions

POLICY

Supplementary Policy – Licensed Hours

Whilst all applications will be dealt with on their own merits the Board considers it necessary for the promotion of the licensing objectives to set parameters with respect to licensed hours. Any application seeking hours outwith those detailed below will be expected to satisfy the Board that there are legitimate grounds for departing from policy and demonstrate that the granting of such hours would not be contrary to the licensing objectives.

Off-Sale Premises

Maximum trading hours for off-sale premises are set by statute. The Board have no power to grant off-sales hours prior to 1000 or after 2200 hours. It should be noted that these are the maximum permitted hours and the Board may restrict these hours if it can be shown to be necessary for the promotion of the licensing objectives.

Earliest Opening Hour

Latest Terminal Hour

All off-sales premises

1000

2200

On-Sale Premises

The Board considers it appropriate to distinguish hours within the city centre from outlying areas. The city centre area is that shown delineated on the undernoted map.

The hours stated below are the earliest acceptable opening hour and latest acceptable terminal hour, and not the maximum permissible hours. The terminal hours stated below are the latest permissible and will not be appropriate for all premises. It will be the responsibility of the licence holder or applicant to demonstrate that the premises is suitable for the hours sought. Additional conditions will normally be added to all premises seeking licensed hours after 1am including but not limited to CCTV, door stewards and radiolink. A link to examples of the standard local conditions can be found in the Supplementary Policy on General Licensing Matters.

The Board considers 15 hours continuous trading to be reasonable within any 24-hour period and so the opening or terminal hour should be adjusted accordingly to comply with this requirement.

The opening hours for casinos remains in line with the statutory hours in terms of the Gambling Act 2005, namely 1200 – 0600 daily.

Outwith City Centre	Earliest Opening Hour	Latest Terminal Hour
Sunday to Thursday	1000	0000
Friday & Saturday	1000	0100
City Centre	Earliest Opening Hour	Latest Terminal Hour
Sunday to Thursday	1000	0200
Friday & Saturday	1000	0300

LICENSING BOARD INFORMATION SHEET

TYPE OF APPLICATION: OCCASIONAL LICENCE

PREMISES: FOUR MILE INN, INVERURIE ROAD, BUCKSBURN, ABERDEEN

DESCRIPTION

Four Mile Inn Public House external seated area to the rear of the premises, utilising the car park for the placing of tables and chairs to accommodate customers to consume alcohol and refreshment in the fresh air.

Friday 1 July to Thursday 14 July 2022 – 11:00 to 22:00

OBJECTIONS/REPRESENTATIONS

- LSO

CONDITIONS

The applicant has accepted the imposition of all the recommended conditions with the exception of the condition in respect of amplified music.

POLICY

Supplementary Policy – External Drinking Areas

The Board recognises that the incorporation of outdoor areas within the licensed footprint of premises can enhance the operation of such premises but considers that it also attracts additional responsibilities on the part of the licence holder to uphold the licensing objectives.

Before an application to licence an outdoor area will be considered the area in question must benefit from the necessary planning permission and, if required, a pavement permit from the Roads Department of Aberdeen City Council.

All outdoor areas must be delineated on the layout plan forming part of the premises licence and outdoor drinking should be included as an activity within the body of the licence.

The Board will expect premises who currently utilise unlicensed outdoor areas to incorporate such areas within the premises licence by way of variation.

Applicants and licence holders must demonstrate that the areas will not contravene the licensing objectives, in particular with regard to noise, litter and antisocial behaviour. The areas must be regularly monitored, and glassware removed.

The Board will routinely attach additional conditions where an outdoor area is licensed including but not restricted to:

- Outdoor area to be clearly demarcated onsite.
- Use of the area to cease at 2200 hours.
- No amplified music or entertainment to take place in the outdoor area.

The terminal hour may be further restricted, and drinks may be required to be decanted into alternatives to glassware if appropriate.

The LSO would like to recommend the following conditions:

1. The Occasional Licence to be available for the duration of the event.
2. A Section 110 notice to be on display for the duration of the Occasional Licence event at the point of sale.
3. An Under 18 access notice to be displayed at the entrance to the area to advise the customer of the children and young person's terms of access.
4. A notice will be displayed in regard to the 'drinking in public places' Byelaw. This must be displayed where customers can easily view the notice.
5. The outdoor area is not to be used prior to 10:00 hours or after 22:00 Hours.
6. A delineation of the licensed area to be in place, the number of seats remain in line with the numbers proposed. Chalk or tape may be used, as long as this is not a permanent mark on any surface. The delineation must be in place for the duration of the Occasional Licence.
7. There shall be no music or noise emitted from the use of microphones/speakers or other forms of music entertainment within the outdoor drinking area.
8. The Licence Holder will have an effective complaints procedure in place for dealing with any noise complaints should they arise.
9. Any outdoor structure, such as a tent or marquee, to be used for the comfort of customers, must be approved by the appropriate Aberdeen City Council Services where necessary.
10. Children and Young persons allowed access for the purpose of partaking of a meal or attending a family function and accompanied by a responsible adult aged 18 or over between the hours of 11:00 hours and 20:30 hours.

In terms of Section 58(1)(b)(ii) of the Licensing (Scotland) Act 2005 I make the following representation.

The area applied for relates to an area to the rear of the property previously covered by grant of an Occasional Licence.

I make the following representation and recommend the licence be granted subject to the following conditions:

1. A terminal hour of 2200 hours on all days requested;
2. Where there is no existing delineation/boundary, the area to be delineated by barrier or similar;
3. Signage to be displayed indicating that alcohol is not to be removed from the licensed area;
4. For the months of June, July and August, the playing of low-level background music in external areas shall be permitted until 2000 hours as per Board Policy; There will be no other form of music entertainment within the outdoor drinking area;
5. The licence holder must take reasonable steps to ensure that litter and, where used, glass and bottles removed from outdoor areas on a regular basis.
6. The licence holder should consider the use of safe alternative to glass containers and bottles in outdoor drinking areas.

Good Afternoon:

A series of Occasional Licence Applications - inside and outside(when not a public area) - The LSO would like to highlight that, as per Section 8 of the Aberdeen Licensing Board's policy, a series of Occasional Licence applications for the same premises will not be considered when it may be more appropriate for a Variation of Premises Licence or Premises Licence application to be submitted. This application falls into this category.

If the Board are minded to grant this Occasional Licence the LSO would like to recommend the following conditions:

These comments are dependent on Environmental Health and possibly Street Occupation (Roads) and Planning services confirming agreement of use of the area.

1. The Occasional Licence to be available for the duration of the event.
2. The minimum of 2 hours training to be in place for staff who sell alcohol or staff who wait on tables at the event. The exception being where the staff member is a Personal Licence Holder. The staff declarations and other training documents to be kept on site for inspection by the LSO/Police. Training to be delivered by a Personal Licence Holder or an accredited training company. The Personal Licence number to be listed on the staff declaration.
3. The Personal Licence Holder (PLH) to have their Personal Licence at the event (the full document including Annex a-c). For Occasional Licence events, it is acceptable for the PLH to have a colour copy of the full PLH document at the event. All PLHs operating at the event to have their documentation available also.
4. A Section 110 notice to be on displayed for the duration of the Occasional Licence event at the point of sale.
5. An Under 18 access notice to be displayed at the entrance to the area to advise the customer of the children and young person's terms of access. Children and young persons will not be allowed access.
6. A notice will be displayed regarding the 'drinking in public places' Byelaw. This must be displayed where customers can easily view the notice.
7. The outdoor area is not to be used prior to 11:00 hours or after 22:00 hours.
8. The Premises will use toughened glass or plastic drinking vessels in the external area.
9. A delineation of the licensed area to be in place, the number of seats remain in line with the numbers proposed. The delineation must be in place for the duration of the Occasional Licence.
10. There shall be no amplified music or noise emitted from the use of microphones/speakers or other forms of music entertainment within the outdoor drinking area.
11. The Licence Holder will have an effective complaints procedure in place for dealing with any noise complaints should they arise.
12. Any outdoor structure , such as a tent or marquee, to be used for the comfort of customers, must be approved by the appropriate Aberdeen City Council Services where necessary.

ABERDEEN CITY LICENSING BOARD

LICENSING BOARD DATE: 5 July 2022

CLERK TO THE LICENSING BOARD: Jenni Wilson

TITLE OF REPORT: Aberdeen Licensing Board Financial Report 2021/22

1. PURPOSE OF REPORT

To invite the Board to approve the Annual Financial Report set out in Appendix One to this Report.

2. RECOMMENDATION(S)

That the Board

(a) approve the annual financial report set out in Appendix One and;

(b) authorise the Clerk to the Board to proceed with the publication of the annual financial report.

3. BACKGROUND

3.1 Licensing Boards must produce and publish annual functions reports and annual financial reports. The Boards annual financial report must normally be prepared and published not later than 3 months after the end of each financial year. Amendments made by the Coronavirus (Scotland) Act 2020 extended the 3-month time limit to 9 months.

3.2 The financial report must include-

(a) a statement of-

i. the amount of relevant income received by the Licensing Board during the financial year, and

ii. the amount of relevant expenditure incurred in respect of the Board's area during the year, and

(b) an explanation of how the amounts in the statement were calculated.

3.3 In this context, "relevant income" means income received by the Board in connection with the exercise of the Board's functions under or by virtue

of the 2005 Act. This involves totaling all the fee income generated by 2005 Act licence applications received during the financial year.

3.4 “Relevant expenditure” means any expenditure-

- (a) which is attributable to the exercise of the Board’s functions under or by virtue of the 2005 Act, and;
- (b) which is incurred by the Board, the Council or the Licensing Standards Officers for the Board’s area.

3.5 Calculation of relevant expenditure is more complicated to determine and requires the figures to be calculated upon estimates of the direct time spent by Legal Service staff as well as all costs in connection with the Licensing function to include central support costs and outlays. It is also worth noting that the Licensing Board income is not guaranteed to remain the same in any financial year and can vary significantly depending on the number and type of applications received. Also, in the event of any appeal against a Board decision, the cost of any appeal would require to be met from the Licensing Board income.

3.6 This year’s accounts show an increase in applications resulting in greater income than the previous year. Expenses have increased overall but the temporary nature of the current working arrangements for staff and Elected Members have resulted in a decrease in some areas.

3.7 The result is a surplus which would allow the Board to give consideration to retaining the reduced figures for the annual fees for on-sales premises which fall due on 1 October 2022 and could consider extending the reduction in fees to all premises in the circumstances.

4. APPENDICES

4.1 Appendix One: Licensing Board Annual Accounts 2021/22

5. REPORT AUTHOR DETAILS

Sandy Munro, Solicitor

ABERDEEN CITY COUNCIL

LICENSING BOARD DATE: 5 July 2022

CLERK TO THE LICENSING BOARD: Jenni Lawson

TITLE OF REPORT: Aberdeen Licensing Board Annual Functions Report 2021/22

REPORT AUTHOR: Sandy Munro, Solicitor

1. PURPOSE OF REPORT

To invite the Licensing Board (“The Board”) to approve this Annual Functions Report.

2. RECOMMENDATIONS

That the Board:

- (1) approve this Annual Functions Report and;
- (2) authorise the Clerk to the Board to proceed with the publication of this Annual Functions Report.

3. BACKGROUND

- 3.1 Licensing Boards must produce and publish annual functions reports and annual financial reports. The Boards annual functions report must normally be prepared and published not later than 3 months after the end of each financial year. Amendments made by the Coronavirus (Scotland) Act 2020 extended the 3-month time limit to 9 months.
- 3.2 This report should contain a statement explaining how the Board has had regard to the licensing objectives, their licensing policy statement, and any supplementary licensing policy statement in the exercise of their functions during the financial year.

4. HOW THE BOARD EXERCISES ITS FUNCTIONS

- 4.1 The Licensing (Scotland) Act 2005 as amended (“the Act”) sets out regulations for the sale of alcohol and regulations for licensed premises and other premises on which alcohol is sold.
- 4.2 The Act has five licensing objectives which the Board must have regard to when exercising its functions. These objectives are: -

- (i) Preventing crime and disorder
 - (ii) Securing public safety
 - (iii) Preventing public nuisance
 - (iv) Protecting and improving public health
 - (v) Protecting children and young persons from harm
- 4.3 The Board deals with all applications in accordance with the legislation, and in particular the five above objectives, together with its Statement of Licensing Policy which is based on the objectives.
- 4.4 The Board has determined all applications in line with the Statement of Licensing Policy. The Board has routinely applied additional conditions on the operation of outdoor drinking areas to ensure minimum disruption to the surrounding area and a condition that restaurants offering a delivery service can only supply alcohol alongside a food delivery. It has also determined all applications for licensed hours in line with the Statement of Licensing Policy.
- 4.5 In accordance with Scottish Government guidance in light of the unique trading climate in which hospitality premises have found themselves the Board have temporarily disappplied the part of the Statement of Licensing Policy which prohibits a series of Occasional Licence applications in respect of the same premises for a time. This was to facilitate temporary premises or temporary additional areas to existing premises to be operated in order to help mitigate the challenges faced by the on-sales sector of the trade. Such temporary areas or premises were still required to operate in accordance with the remainder of the Statement of Licensing Policy. Now that there are no restrictions on indoor trading operations the full Policy has again been reinstated.
- 4.6 The Board has also worked closely with partner agencies including Police Scotland, NHS Grampian, the local licensing forum and Licensing Standards Officers to ensure the satisfactory operation of licensed premises. As a result, problems can be identified and addressed at an early stage and this reduces the need for Premises Licence Reviews after the fact.
- 4.7 The amount of applications has increased following a return to more normal trading conditions than the previous period. A summary of the Board's position in terms of the statistics which the Board has to provide the Scottish Government is enclosed as Appendix 4.
- 4.8 The increase in the terminal hour for on-sales premises has allowed operators a flexibility that has rendered the need for General Extensions less important. Accordingly, in line with recent years, the Board restricted the issue of General Extensions to the festive period.
5. SUMMARY OF DECISIONS OVER THE LAST FINANCIAL YEAR
- 5.1 A Summary of all decision made by the Licensing Board can be found on the Licensing Board's Website at

<https://committees.aberdeencity.gov.uk/ieListMeetings.aspx?CommitteeId=151>

6. THE NUMBER OF LICENCES IN THE BOARDS AREA

- 6.1 See Appendix 1 – Premises Licences
- 6.2 See Appendix 2 - Personal Licences
- 6.3 See Appendix 3 – Occasional Licences
