

Appendix 5

What is Visible Learning?

Visible learning is all about children taking ownership for their learning.

Visible Learning is the result of the research undertaken by John Hattie to understand what provides the most success in learning. It is based on over 68,000 studies and 25 million students. John Hattie defines Visible Learners as students who can:

- Articulate what they are learning
- Explain the next steps in their learning
- Set learning goals
- See errors as opportunities for further learning
- Know what to do when they are stuck
- Seek feedback
