9	refurbishment of Harlaw Road Pavilion	A provisional allocation of funding for the refurbishment of the Harlaw Road Pavilion was approved within the Condition and Suitability Programme by the City Growth and Resources Committee on 18 September 2018. This report is to seek the approval of Capital Programme Committee for the full business case for this project. Procurement regulation 4.1.1.2 also requires that individual works contracts with an estimated value above £250,000 require a business case to the Strategic Commissioning Committee, and that the approval of that Committee is required prior to the procurement being undertaken. The estimated cost of the proposed refurbishment of Harlaw Road Pavilion is above this threshold, and so the business case for this project will also be presented to the Strategic Commissioning Committee for its approval. The Capital Programme Committee on 19/3/19 agreed to note the update provided by the Chief Officer Corporate Landlord and that the item would transfer to the City Growth and Resources Committee and be reported to the first committee cycle after the summer.		Andrew Jones	Corporate Landlord	Resources		D	Investigation of alternative proposals for the Harlaw Road Pavilion are continuing in order to ensure that all possible options have been considered and costs are minimised to achieve best value. Officers feel it would be prudent to wait until the outcomes of this work are available, before making any recommendations to the February meeting of the Committee on how best to proceed.

15	System (SUDS) Section 7	of a private property, such as a residential driveway or a supermarket car park, is the responsibility of the land owner or occupier. The Scottish Environment Protection Agency's (SEPA's) preference is for SuDS constructed outside the boundaries or curtilage of a private property to be adopted by Scottish Water, the local authority or a public body, and as such SEPA seeks a guarantee for the long term maintenance and sustainability of any SuDS implemented.	the June meeting, however only 8 out of 32 local authorities have signed up to the MOU with Scottish Water – another 19 are considering their options. So nationally things are less advanced than we thought they would be at this stage. Signing up to the MOU commits ACC to significant costs which would increase annually as SuDS come on stream. The lack of progress at a national level gives us more time to consider our options and in particular how SuDS fit into the bigger surface water management framework. Further discussions have been requested with Scottish Water.		Protective Services	Operations	Purpose 1		Officers need to understand SuDS and their associated costs within the bigger surface water management framework, a paper will be prepared for the Corporate Management Team explaining the direction of travel and likely impact on our budgets. In light of the additional consultation and appraisal, a delay is required to allow a better understanding of the costs and risks to be developed. Report likely April 2020, but may be sooner.
