Officers need to assess contents of city plaques (c.120) and Aberdeen street names (3197) for connections to slavery and slavery products to give an indication of costs associated with any new interpretation; plus clear understanding of process, resources and costs to seek and gain permission from property owners where such an interpretation plaque may be placed. David Dunne/David Berry	Strategic Place Planning	Commissioning	3.2		
43	Energy Transition Zone Training and Jobs Plan	Council on 3 March 2020 agreed to instruct the Chief Officer City Growth to evaluate the Energy Transition Zone Training and Jobs Plan and report back to the Council's City Growth and Resources Committee on 28 October 2020 on the extent to which local people are accessing training or job opportunities that are generated if any development occurs.	A key element of the overall business case for the ETZ, being led by Opportunity North East, is that Aberdeen Harbour is the location of choice for developers and suppliers to the ScotWind East Region Sites. In response, Skills Development Scotland, supported by NESCOL is leading a workstream that will focus on development of an energy transition skills programme, that will also involve the Council and the universities so that local people in the city are able to access new training and jobs opportunities in offshore wind, carbon capture, utilization and storage (CCUS) and Hydrogen. It is also intended to promote and stimulate broader 'green skills' that will also be in demand as the city responds to the net zero vision and the Council's own Route Map. 45	Sustainable Drainage System (SUDS) Section 7	Maintenance of SuDS within the boundaries or curtilage of a private property, such as a residential driveway or a supermarket car park, is the responsibility of the land owner or occupier. The Scottish Environment Protection Agency's (SEPA's) preference is for SuDS constructed outside the boundaries or curtilage of a private property to be adopted by Scottish Water, the local authority or a public body, and as such SEPA seeks a guarantee for the long term maintenance and sustainability of any SuDS implemented.	This was originally due to be reported to the June 2019 meeting. Officers had consulted other LAs to determine how they came to the decision as to whether to sign up to the MOU with Scottish Water and have found that the interpretation of what Scottish Water consider to be below ground, and therefore their responsibility for maintenance, is key. We have asked for clarification from Scottish Water and are awaiting a response. Without this clarification we are not in a position to make a recommendation as to whether the MOU should be signed. A Service Update will be circulated. A Service Update was circulated on 21 January 2021.	Claire Royce	Operations and Protective Services	Operations	3.2 and 3.3
