Risk Register

Pensions Dashboard

In line with best practice and the Pensions Regulator (tPR) Code of Practice, NESPF maintains a risk register to ensure the risks the Fund faces are properly understood, and risk mitigation actions are in place.

This Risk Register is reviewed and updated quarterly, with reporting to the Pensions Committee.

The Pensions Committee is responsible for receiving assurance on the effectiveness of NESPF risk management arrangements as per their Terms of Refence.

Risk Scoring Process

In order to apply an assessment rating (score) to a risk, NESPF implements a 4 x 6 matrix. The 4 scale represents the impact of a risk and the 6 scale represents likelihood of a risk event occurring.

4	Very Serious	4	8	12	16	20	24
3	Serious	3	6	9	12	15	18
2	Marginal	2	4	6	8	10	12

Red = High Priority (urgent action required)

Orange = Medium Priority (assess adequacy of current controls, consider further action required to mitigate risk)

Green = Low Priority (no immediate action subject to exceptions, continue to review)
