Introduction & Background

This document is made publicly available on our website, in order to help stakeholders (including members of the public) understand the challenges currently facing health and social care in Aberdeen.

This is the strategic risk register for the Aberdeen City Integration Joint Board, which lays the foundation for the development of work to prevent, mitigate, respond to and recover from the recorded risks against the delivery of its strategic plan.

Just because a risk is included in the Strategic Risk Register does not mean that it will happen, or that the impact would necessarily be as serious as the description provided.

More information can be found in the Board Assurance and Escalation Framework and the Risk Appetite Statement.

Description of Risk: Cause: The strategic commissioning of services from third and independent sector providers requires both providers and ACHSCP to work collaboratively (provider with provider and provider and ACHSCP) in order to strategically commission and deliver services to meet the needs of local people. This is a new dynamic, based on mutual trust.

Event: Limitations to the extent with which strategic commissioning of services progresses between ACHSCP and third and independent providers of health and social care.

Consequence: There is a gap between what is required to meet the needs of local people, and services that are available.

Consequences to the individual include not having the right level of care delivered locally, by suitably trained staff.

Consequences to the sector include investments made in services that will not be fully utilised and thereby risks to sustainability

Consequences to the partnership includes an inability to meet peoples needs for health and care and the additional financial burden of seeking that care in an alternative setting

Strategic Priority: Prevention and Communities

Leadership Team Owner: Lead Commissioner

Risk Rating: low/medium/high/very high

HIGH

Rationale for Risk Rating:

- There continue to be significant gaps in our ability to engage at a strategic level with some parts of the social care sector eg care home owners, and therefore a lack of alignment in our strategic response to the demands placed upon the whole system. Evidence of the impact of this includes a mismatch between the physical capacity we have available to meet the outcomes of people and the suitability and appropriateness of that capacity eg unsuitable accommodation, and a lack of appropriately trained staff
- There are difficulties in recruiting to vacant GP positions within the city which has led to GP practices closing.
- The impact of Covid-19 on independent GP practices, community optometrists and general dental practitioners is not yet fully quantifiable. Should supply of these contracted services reduce due to financial constraints and businesses fail, there may be insufficient capacity to provide services to patients. The responsibility to ensure patients have access to these services rests with the Partnership. Scottish Government via Chief Dental Officer has highlighted an increased risk of reduction in General Dental Practitioners capacity as a result of patient deregistration activity seen in some regions

LIKELIHOOD	Negligible	Minor	Moderate	Major	Extreme

Rationale for Risk Appetite:

As 3rd and independent sectors are key strategic partners in delivering transformation and improved care experience, we have a low tolerance of this risk. It is suggested that this risk tolerance should be shared right throughout the organisation, which may encourage staff and all providers of primary health and care services to escalate valid concerns at an earlier opportunity.

Risk Movement: increase/decrease/no change

NO CHANGE 21.02.22

Controls:

- Conscious cultural shift to change relationships, with all strategic commissioning activity proceeding in a collaborative manner.
- Examples of collaborative commissioning models used as exemplar models within the City. Care at Home, Mental Health / Learning disability accommodation review.

Mitigating Actions:

- All opportunities to work in a collaborative manner to commission services are advertised on Public Contract Scotland, as well as individual invitations made to CEOs / owners of social care services.
- Additional offers are made to encourage dialogue where the provider is unavailable to attend collaborative commissioning workshops etc.
- Agreed strategic commissioning approach for ACHSCP.

For example, even with the best monitoring system, the closure of a practice can happen very quickly, with (in some cases) one partner retiring or becoming ill being the catalyst. • Market forces and individual business decisions regarding community optometry, general practice and general dental practitioners cannot be influenced by the Partnership. • We are currently undertaking service mapping which will help to identify any potential gaps in market provision • Public Dental Services staffing capacity to increase service provision in short term

Controls: <ul style="list-style-type: none"> Financial information is reported regularly to the Risk, Audit and Performance Committee, the Integration Joint Board and the Leadership Team Risk, Audit & Performance receives regular updates on transformation programme & spend. Approved reserves strategy, including risk fund Robust financial monitoring and budget setting procedures including regular budget monitoring & budget meeting with budget holders. Budgets delegated to cost centre level and being managed by budget holders. Medium-Term Financial Strategy. 			Mitigating Actions: <ul style="list-style-type: none"> The Leadership Team are committed to driving out efficiencies, encouraging self-management and moving forward the prevention agenda to help manage future demand for services. 		

- Rationale for Risk Rating:**
- If the partnership does not have sufficient funding to cover all expenditure, then in order to achieve a sustainable balanced financial position, decisions will be required to be taken which may include reducing/stopping services
 - If the levels of funding identified in the Medium Term Financial Framework are not made available to the IJB in future years, then tough choices would need to be made about what the IJB wants to deliver. It will be extremely difficult for the IJB to continue to generate the level of savings year on year to balance its budget.
 - The major risk in terms of funding to the Integration Joint Board is the level of funding delegated from the Council and NHS and whether this is sufficient to sustain future service delivery. There is also a risk of additional funding being ring-fenced for specific priorities and policies, which means introducing new projects and initiatives at a time when financial pressure is being faced on mainstream budgets.
 - IJB is currently receiving additional funding from the Scottish Government to cover the additional costs of Covid. There could be risks to the IJB as this additional funding is withdrawn.

Rationale for Risk Appetite:
 The IJB has a low-moderate risk appetite to financial loss and understands its requirement to achieve a balanced budget. The IJB recognises the impacts of failing to achieve a balanced budget on Aberdeen City Council & its bond – an unmanaged overspend may have an impact on funding levels.

However, the IJB also recognises the significant range of statutory services it is required to meet within that finite budget and has a lower appetite for risk of harm to people (low or minimal).

The Partnership require to have controls in place to manage these risks, particularly the ability to respond to these in an emergency situation. Aberdeen City Council are currently reviewing the risks in the City within its risk registers to ensure that the control actions listed are sufficient to mitigate risks. During this process, the additional risks may well be identified, based on risk assessment within operational areas, which may impact on the ability to respond. The result will be a risk register incorporating all risks relating to organisational resilience for the City. The City Resilience Group will be responsible for managing these risks through its membership and liaison with other services not represented on the Group. Appendix 2 – Risk Assessment Matrices (from Board Assurance & Escalation Framework)

Table 1 - Impact/Consequence Definitions

Descriptor	Negligible	Minor	Moderate	Major	Extreme
Patient Experience	Reduced quality of patient experience/ clinical outcome not directly related to delivery of clinical care.	Unsatisfactory patient experience/clinical outcome directly related to care provision – readily resolvable.	Unsatisfactory patient experience/clinical outcome, short term effects – expect recovery <1wk.	Unsatisfactory patient experience/ clinical outcome; long term effects –expect recovery >1wk.	Unsatisfactory patient experience/clinical outcome, continued ongoing long term effects.
Objectives/ Project	Barely noticeable reduction in scope, quality or schedule.	Minor reduction in scope, quality or schedule.	Reduction in scope or quality of project; project objectives or schedule.	Significant project over-run.	Inability to meet project objectives; reputation of the organisation seriously damaged.
Injury (physical and psychological) to patient/ visitor/staff.	Adverse event leading to minor injury not requiring first aid	Minor injury or illness, first aid treatment required.	Agency reportable, e.g. Police (violent and aggressive acts). Significant injury requiring medical treatment and/or counselling.	Major injuries/long term incapacity or disability (loss of limb) requiring medical treatment and/or counselling.	Incident leading to death or major permanent incapacity.
Complaints/ Claims	Locally resolved verbal complaint	Justified written complaint peripheral to clinical care.	Below excess claim. Justified complaint involving lack of appropriate care.	Claim above excess level. Multiple justified complaints	Multiple claims or single major claim. Complex justified complaint.
Service/ Business Interruption	Interruption in a service which does not impact on the delivery of patient care or the ability to continue to provide service.	Short term disruption to service with minor impact on patient care.	Some disruption in service with unacceptable impact on patient care. Temporary loss of ability to provide service.	Sustained loss of service which has serious impact on delivery of patient care resulting in major contingency plans being invoked.	Permanent loss of core service or facility. Disruption to facility leading to significant "knock on" effect.
Staffin and Competence	Short term low staffin level temporarily reduces service quality (< 1 day). Short term low staffin level (>1 day), where there is no disruption to patient care.	Ongoing low staffin level reduces service quality Minor error due to ineffective training/implementation of training.	Late delivery of key objective/ service due to lack of staff. Moderate error due to ineffective training/ implementation of training. Ongoing problems with staffin levels	Uncertain delivery of key objective /service due to lack of staff. Major error due to ineffective training/implementation of training.	Non-delivery of key objective/ service due to lack of staff. Loss of key staff. Critical error due to ineffective training / implementation of training.
Financial (including damage/loss/ fraud)	Negligible organisational/ personal financial loss (£<1k).	Minor organisational/ personal financial loss (£1-10k).	Significant organisational / personal financial loss (£10-100k).	Major organisational/personal financial loss (£100k-1m).	Severe organisational/ personal financial loss (£>1m).
Inspection/Audit	Small number of recommendations which focus on minor quality improvement issues.	Recommendations made which can be addressed by low level of management action.	Challenging recommendations that can be addressed with appropriate action plan.	Enforcement action. Low rating. Critical report.	Prosecution. Zero rating. Severely critical report.
Adverse Publicity/ Reputation	Rumours, no media coverage. Little effect on staff morale.	Local media coverage – short term. Some public embarrassment. Minor effect on staff morale/ public attitudes.	Local media – long-term adverse publicity. Significant effect on staff morale and public perception of the organisation.	National media/adverse publicity, less than 3 days. Public confidence in the organisation undermined. Use of services affected.	National/International media/ adverse publicity, more than 3 days. MSP/MP concern (Questions in Parliament). Court Enforcement. Public Enquiry/FAI.

Table 4 - NHSG Response to Risk

Describes what NHSG considers each level of risk to represent and spells out the extent of response expected for each.

Level of Risk	Response to Risk
Low	Acceptable level of risk. No additional controls are required but any existing risk controls or contingency plans should be documented. Managers/Risk Owners should review these risks applying the minimum review table within the risk register process document to assess whether these continue to be effective.
Medium	Acceptable level of risk exposure subject to regular active monitoring measures by Managers/Risk Owners. Where appropriate further action shall be taken to reduce the risk but the cost of control will probably be modest. Managers/Risk Owners shall document that the risk controls or contingency plans are effective. Managers/Risk Owners should review these risks applying the minimum review table within the risk register process document to assess whether these continue to be effective. Relevant Managers/Directors/Assurance Committees will periodically seek assurance that these continue to be effective.
High	Further action should be taken to mitigate/reduce/control the risk, possibly urgently and possibly requiring significant resources. Managers/Risk Owners must document that the risk controls or contingency plans are effective. Managers/Risk Owners should review these risks applying the minimum review table within the risk register process document to assess whether these continue to be effective. Relevant Managers/Directors/Executive and Assurance Committees will periodically seek assurance that these continue to be effective and confirm that it is not reasonably practicable to do more. The Board may wish to seek assurance that risks of this level are being effectively managed. However NHSG may wish to accept high risks that may result in reputation damage, financial loss or exposure, major breakdown in information system or information integrity, significant incidents(s) of regulatory non-compliance, potential risk of injury to staff and public.
Very High	Unacceptable level of risk exposure that requires urgent and potentially immediate corrective action to be taken. Relevant Managers/Directors/Executive and Assurance Committees should be informed explicitly by the relevant Managers/Risk Owners. Managers/Risk Owners should review these risks applying the minimum review table within the risk register process document to assess whether these continue to be effective. The Board will seek assurance that risks of this level are being effectively managed. However NHSG may wish to accept opportunities that have an inherent very high risk that may result in reputation damage, financial loss or exposure, major breakdown in information system or information integrity, significant incidents(s) of regulatory non-compliance, potential risk of injury to staff and public.
