

Integrated Impact Assessment Pre-screening Stage 1

The Integrated Impact Assessment (IIA) supersedes the previous Equality and Human Rights Impact Assessment (EHRIA) form.

The pre-screening (Stage 1) will determine if your proposal requires a full impact assessment (Stage 2). Stage 2 will look at details of your proposals, the impact and any mitigations in place.

Note: This form should be completed using the guidance contained in the document: 'Guide to Completing an Integrated Impact Assessment'. Please read the guidance before completing this form.

This assessment and accompanying guidance use the term 'policy' for any activity within Aberdeen City Council. Therefore 'policy' should be understood broadly to embrace the full range of your policies, provisions, criteria, functions, practices and activities including the delivery of services - essentially everything you do.

Purpose:

Aberdeen City Council wants Aberdeen to be a place where all people can prosper. We want everyone in Aberdeen to have fair opportunities regardless of their background and circumstances. The aim of this assessment is to allow you to critically assess:

- the impact of the policy / proposal on different communities.
- whether Aberdeen City Council is meeting its legal requirements in terms of [Public Sector Equality Duty](#), [Equality Outcomes](#) and [Human Rights](#);
- whether [Children's Rights](#) have been impacted;
- whether [Socio-economic disadvantage](#) is reduced;
- whether any measures need to be put in place to ensure any negative impacts are eliminated or minimised which will be covered in Stage 2.

<p>Is this a new or existing policy/ proposal?</p>	<p>New</p>
<p>Brief description of policy / proposal (including intended outcomes and purposes)</p>	<p>The Library and Information Service provides a wide range of services to communities. In the current context of budget challenges there is a need to continue to provide access to library services while reviewing the cost of access provision.</p> <p>This project aims to provide additional access to services and safe spaces at a reduced running cost.</p> <p>Review introduction of Open+ access technology to allow libraries to provide more flexible hours, making them more accessible to the community. Designed to complement staffed library hours, it can be implemented in several different ways to meet various library service models. Such as extending access to an entire library or only a section of it, providing full self-service resources or mainly a holds pick-up area, it has the flexibility to extend access in the way that best meets the needs of their community and space.</p> <p>Introduction of such a system would allow the reduction in staffed opening hours whilst maintaining self-service access to a library to enable the lending and return of resources, access to PCs or Wifi for online access to the internet or online resources such as databases, periodicals, books and newspapers.</p> <p>During unstaffed hours there would be opportunities for booking by community groups or organisations to host sessions making use of facilities and resources. Volunteers could provide support for digital access or learning.</p> <p>There would be a revenue growth cost for installation of the technology which includes CCTV (est £11k per site) and to adapt buildings to make them suitable e.g. external doors/entranceways. This would vary depending on building. In addition annual running/maintenance costs (£6.5k per site) would have to be factored into budgets.</p>

	Current library relocation project at Dyce learning Centre will include open+access and was planned as a pilot however design and construction delays have pushed this back into late 2022
