Appendix G: Summary of risks and mitigating action

Risks	Mitigating Actions
Community Health Services Balanced financial position is dependent on vacancy levels.	Monitor levels of staffing in post compared to full budget establishment.
	A vacancy management process has been created which will highlight recurring staffing issues to senior staff.
There is the potential of increased activity in the activity-led Forensic Service.	Work is being undertaken at a senior level to consider future service provision and how the costs of this can be minimised.
There is the risk of high levels of use of expensive locums for intermediate care, which can put pressure on hosted service budgets.	The movement of staff from elsewhere in the organisation may help to reduce locum services.
There is a risk of fluctuations in the learning disabilities budget because of: expensive support packages may be implemented. Any increase in provider rates for specialist services.	Review packages to consider whether they are still meeting the needs of the clients. All learning disability packages are going for peer review at the fortnightly resource allocation panel.
Increase in activity in needs led service. Potential complex needs packages being discharged from hospital. Increase in consultant vacancies resulting in inability to recruit which would increase the locum usage. Average consultant costs £12,000 per month average locum £30,000 per month.	Work has been undertaken to review levels through using CareFirst. Review potential delayed discharge complex needs and develop tailored services. A group has been established in the city to look at supplementary staffing on a regular basis.
There is a risk that staffing levels change which would have an impact on the balanced financial position. There is the risk of an increase in activity in needs led service, which would also impact the financial position.	Monitor levels of staffing in post compared to full budget establishment. Regular review packages to consider whether they are still meeting the needs of the clients.
There is a risk of increased prescribing costs as this budget is impacted by volume and price factors, such as the increase in drug prices due to short supply. As both of which are forecast on basis of available date and evidence at start of each year by the Grampian Medicines Management Group	Review of prescribing patterns across General Practices and follow up on outliers. Implementation of support tools – Scriptswitch, Scottish
	Therapeutic Utility. Poly pharmacy and repeat prescription reviews to reduce wastage and monitor patient outcomes.
There is a risk of an increase in number of Aberdeen City patients requiring complex care from providers located out with the Grampian Area, which would impact this budget.	Groups to be re-established reviewing placements and considering if these patients can be cared for in a community setting.
