Should further information be required, please let the case officer know as soon as possible in order for the information to be requested to allow timeous determination of the application.

Response

Please select one of the following.

No observations/comments.	
Would make the following comments (please specify below).	
Would recommend the following conditions are included with any grant of consent.	Y
Would recommend the following comments are taken into consideration in the determination of the application.	
Object to the application (please specify reasons below).	

COMMENTS

Waste Services response regarding application 211791 High Point

As I understand, the development will consist of **16 residential dwellings**

I have consulted with colleagues across the waste operations team. I can confirm that Aberdeen City Council intend to provide the following services upon building completion.

Please note the information provided below by Waste Services is independent of the outcome of the planning application, which is being determined by the planning authority.

Each **10 flats** will be provided with:

- **1 x 1280l general waste container** 1410mm H x 1265mm W x 1030mm D (plus 90cm minimum clearance to manoeuvre bins)
- **1 x 1280l mixed recycling container** 1410mm H x 1265mm W x 1030mm D (plus 90cm minimum clearance to manoeuvre bins)
- **1 x food waste container for each bin store.** 1366mm H x 734mm W x 734mm D (plus 90cm minimum clearance to remove internal bin from front opening casing)
- **1x kitchen caddy and caddy liners (for each flat)**

The following costs will be charged to the developer:

- **Each 1280l bin costs £413.60**
- **Each food waste container costs £514.49**
- **Kitchen caddy and caddy liners £0.00**

No garden waste will be provided for **flat residences** as it is assumed grounds will be maintained as part of a service charge for the building and undertaken by a commercial contractor.

It is pertinent to note that these services will be provided taking account of the following:

Specific concerns

- I would like to see a **swept analysis** from the developer to ensure our collection vehicles can safely manoeuvre around the development.
- **No excess** should be stored out with the containment provided. Information for extra waste uplift is available to residents at either www.aberdeencity.gov.uk/wasteaware or by phoning 03000 200 292.
- Further information can be found in the Waste Supplementary Guidance available at: <https://www.aberdeencity.gov.uk/sites/default/files/2020-07/7.1.PolicySG.ResourcesForNewDevelopmentUpdateJuly2020.pdf>
- **Developers must contact Aberdeen City Council a minimum of ONE month before properties will be occupied.** Bins **MUST** be on site prior to residents moving into properties. A Purchase Order should be raised with Aberdeen City Council using the above details and we will provide further guidance for purchasing the bins.
- If the bin store will be **locked and/ or involve a barrier, 8 keys must be provided for each store**, providing access to the different collection crews and Recycling Officer for monitoring contamination. These should be dispatched to the Waste Team.

Commercial Unit

When providing feedback on commercial developments, I can only provide a very general response regarding commercial developments due to Aberdeen City Council not being the only waste service contractor available in the city.

See below for general comments:

- Commercial waste bins cannot be stored on the street any day of the week as per Council Policy 2009 (Obstructions- Commercial Waste Bins). Infringement on the Council Policy can lead to a fine of £500 per bin as adopted by the Enterprise, Strategic Planning and Infrastructure Committee on 29th August 2013
- There are many waste contract collection providers operating in Aberdeen and each one provides different collection of waste and recycling services. For this reason, business premises need to liaise with their waste contract collection to ensure the correct management of their waste.
- Business premises have a legal Duty of Care covering all the waste they produce. This means that it is the Business premises responsibility to manage and dispose of any waste correctly.
- The Waste (Scotland) 2012 requires that **all businesses** from 1st January 2014 are required to separate paper, cardboard, glass, plastic and metals for recycling. Some businesses will additionally be required to separate their food waste (where food waste >5kg per week).
- General tips for site and hopefully the chosen waste collection contractor will detail this but for access, the following is needed:
 - An area of hard standing at storage and collections point(s)
 - Dropped kerb at proposed bin collection point
 - Yellow lines in front of bin collection point
 - Bin storage areas to ideally be provided with a gulley and wash down facility for the interest of hygiene

Additional Trade Waste information can be found in the Waste Supplementary Guidance available at <https://www.aberdeencity.gov.uk/sites/default/files/2020-07/7.1.PolicySG.ResourcesForNewDevelopmentUpdateJuly2020.pdf>

Should you have any further queries or wish to discuss these comments further, please do not hesitate to contact me.
