10 January 2022

Dear Robert

**NESBReC report - Planning Application 211791/DPP**

Please find below the results of the data search you requested from NESBReC.  
The search was carried out within 100m of the specified site, as shown in the maps below and with a centre point at NJ 83682 00661.

Results table:

Ref No.	Dataset	Interest	Locality	Grid Reference
211791/DPP	Designated Species	<b>UK BAP</b> Eurasian Red Squirrel ( <i>Sciurus vulgaris</i> ) <b>SBL S5</b> Siskin ( <i>Spinus spinus</i> )	High Point 242 North Deeside Road Peterculter Aberdeen	NJ 83682 00661
	Integrated Habitat System Aberdeen City 2018-2021	GI0 - Improved grassland WB3Z - Other broadleaved woodland WB1 - Mixed woodland GNZ - Other neutral grassland		

Maps showing all the search results are included below.

Yours sincerely

D Caffrey  
GIS Project Officer

**PLEASE READ THE FOLLOWING NOTES:**

- 1) Search was done to within 100 metres of the area of interest. This is indicated on the map by a broken line around the site.
- 2) Search areas or centroids are highlighted in red.
- 3) The dots on any maps depicting the locations of a species are positioned at the centre of a square representing the resolution of the recorded grid reference. Care should be taken over interpretation
- 4) Due to the limits of the map display function, all records may not be visible on the species maps. However, all species are listed in the relevant table above the map and a full list of records can be supplied in Excel format.
- 5) Scientific names are only used to identify species on maps when no common name is in general accepted usage.
- 6) For maps without a key, the relevant information is provided in the table.
- 7) The ownership of the data within this report remains with the original recorder and is subject to the laws defining Intellectual Property Copyright.
- 8) This report and the data held within it are to be used solely for those purposes described under the terms of any agreement between the applicant and NESBReC.
- 9) Some, or all of the data held within this report may be of a sensitive or confidential nature. Such information will be marked as such and if required an appropriate contact for further correspondence will be given (otherwise NESBReC should be contacted).
- 10) Although NESBReC makes every possible effort to ensure that the data it provides is accurate and up to date, this report should only be considered to represent the most recent version of each dataset as available at the time of the search.
- 11) NE LBAP Locally Important Species are species that are not on existing designated species lists but have been identified as important in the local context.

For designated species, the following abbreviated sub-headings are used to describe different levels of protection or importance:

- Protection of Badgers Act (1992)
- European Protected Species – Habitat Regulations 1994 (as amended in Scotland)
- ANNEX 1, 2.1, 2.2 – EC Birds Directive
- UK BAP - UK BAP list of Priority Species
- SBL S2 - Scottish Biodiversity List: International Obligations
- SBL S3 - Scottish Biodiversity List: Nationally Rare at UK level, found in only 1-15 10km squares
- SBL S4 - Scottish Biodiversity List: Present in 5 or fewer 10km squares or sites in Scotland
- SBL S5 - Scottish Biodiversity List: Decline of 25% or more in Scotland in last 25 years

Note, a species may be designated under several of these lists, but will only be listed under its highest level or most relevant designation within this report. The ranking order used here is Protection of Badgers Act (1992), European Protected Species (used for Bats only), ANNEX 1, ANNEX 2.1, UK BAP, ANNEX 2.2, SBL S2-SBL S5.

211791/DPP	Designated Species	<b>UK BAP</b> Eurasian Red Squirrel ( <i>Sciurus vulgaris</i> ) <b>SBL S5</b> Siskin ( <i>Spinus spinus</i> )	High Point 242 North Deeside Road Peterculter Aberdeen	NJ 83682 00661
