

PART 5 Procurement

5a How have procurement policies contributed to compliance with climate change duties?

Provide information relating to how the procurement policies of the body have contributed to its compliance with climate changes duties.

There is currently no climate change specific policies within the ACHSCP's commissioning and procurement framework, however the commissioning framework will be reviewed as part of the ACHSCP's 2022-2025 strategic plan, and supply-chain engagement is planned with external service providers to identify the counting and management of carbon emissions across commissioned services, enabling to achieve effective carbon counting as well as ensuring our Scope 3 emissions are net zero 2045.

5b How has procurement activity contributed to compliance with climate change duties?

Provide information relating to how procurement activity by the body has contributed to its compliance with climate changes duties.

There is currently no climate change specific policies within the ACHSCP's commissioning and procurement framework, however the commissioning framework will be reviewed as part of the ACHSCP's 2022-2025 strategic plan, and supply-chain engagement is planned with external service providers to identify the counting and management of carbon emissions across commissioned services, enabling to achieve effective carbon counting as well as ensuring our Scope 3 emissions are net zero 2045.

Further information

5c Supporting information and best practice

Provide any other relevant supporting information and any examples of best practice by the body in relation to procurement.

Empty text box for providing supporting information and best practice.
