The alternative energy strategy for Council owned public buildings has been developed to support the installation of low / zero carbon technologies on Council owned public buildings and assets. This strategy is not thought to have any adverse negative impacts in line with the conditions of the EHRIA.

10. Where will you publish the results of the Equality and Human Rights Impact Assessment? Tick all that apply.

 $\sqrt{\rm Summary}$  of EHRIA will be published in committee report under section "Equality Impact Assessment"

□ Full EHRIA will be attached to the committee report as an appendix

□ Summary of EHRIA to be published on Council website within relevant service pages

## STEP 2: Outline the aims of the proposal

11. What are the main aims of the proposal?

The alternative energy strategy for Council owned public buildings has been developed to support the installation of low/zero carbon technologies on Council owned public buildings and assets. This will not only contribute to the UK Governments legally binding renewables target but will also facilitate the Council to reduce the Council's carbon dioxide emissions and future proof the Council from rising energy prices.

#### 12. Who will benefit most from the proposal?

Local Tax payers and communities where alternative energy systems are developed and locally generated power is produced.

13. Tell us if and how the proposal will increase equality of opportunity by permitting positive action to redress disadvantage?

The strategy has not been specifically developed to increase equality of opportunity however it will provide a more equitable return on renewable investments for the Council.

Equality and Human Rights Impact Assessment - the Form.

14. What impact will the proposal have on promoting good relations and wider community cohesion?

The alternative energy strategy will promote installation of low/zero carbon technologies on buildings such as community centres, schools, museums, theatres etc, providing the opportunity for climate change/energy efficiency awareness raising activities within that community.

### STEP 3: Gather and consider evidence

15. What evidence is there to identify any potential positive or negative impacts in terms of consultation, research officer knowledge and experience, equality monitoring data, user feedback and other?

Evidence	Details
Consultation	This Strategy has been developed to support the installation of low/zero carbon technologies on Council owned public buildings and assets and has been internally distributed for consultation.
Research	Additional research carried out.
Officer knowledge and experience (including feedback from frontline staff)	This Strategy has been developed by a group of Officers representing the main Council services, who have contributed their experience and professional opinion.
Equality monitoring data	None available.
User feedback (including complaints)	Though climate change and renewables are popular topics, to date there has been no user feedback-positive or negative regarding this.
