

Anti-Poverty Committee

SERVICE UPDATE

<u>Name of Function:</u>	Commissioning
<u>Date:</u>	May 2023
<u>Title of Update:</u>	ABERDEEN OUTCOMES FRAMEWORK / DATA OBSERVATORY
<u>Report Author:</u>	Martin Murchie
<u>Chief Officer:</u>	Martin Murchie
<u>Contact Details:</u>	Martin Murchie

UPDATE:

The Committee at their meeting of 8th March, 2023 requested that an update be provided on the reporting available from the Council's Data Observatory.

The Data Observatory is one element within a wider public website called the "Aberdeen Outcomes Framework" (link below). The Outcomes Framework site gives access to a broad range of information and data including:-

- The City's Population Needs Assessment
- Data and information tracking progress for each improvement project in the Local Outcome Improvement Plan
- A range of locality data, shown at datazone, ward, locality levels depending on availability
- The Data Observatory
- Selected third party resources giving community profiles, health inequality information, research, impact of Covid and other tools

Aberdeen Outcomes Framework

Community Planning Aberdeen | Aberdeen City Council | NHS Grampian | Police Scotland | Scottish Fire & Rescue Service

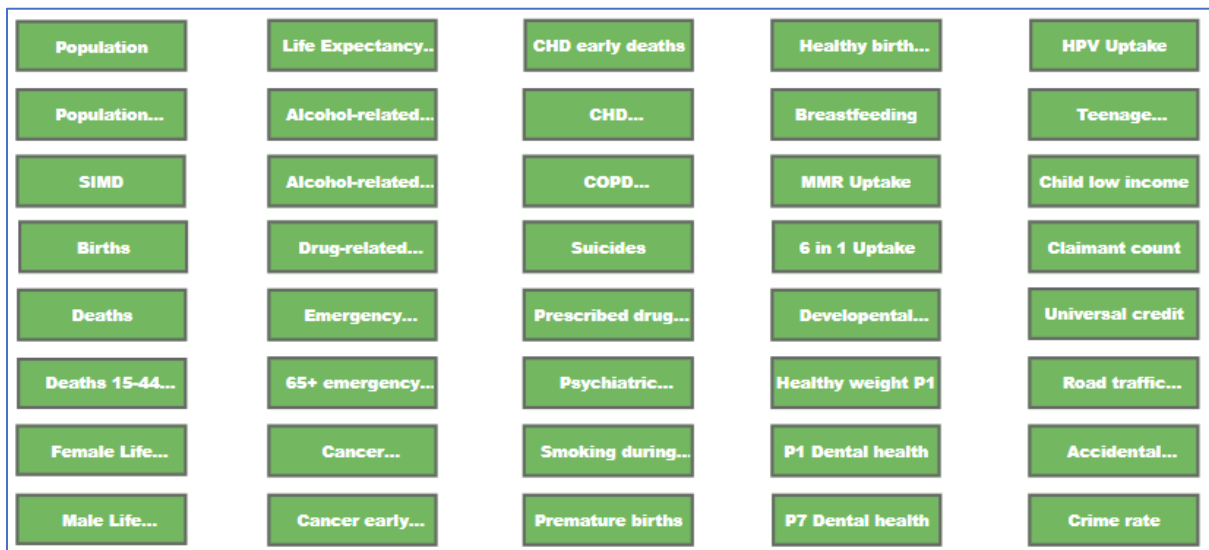

Population Needs Assessment	Aberdeen City Data Observatory	Local Outcome Improvement Plan (LOIP)	LOIP Improvement Project Data	Annual Reports	Data Sources	Compare Localities
Compare Communities Nationally	Compare Indicators Nationally	Health Inequalities	Search Research and Evidence	Covid-19 Impact	Socio-Economic Rescue Plan	Compare Locality Data Over Time
Economy		People		Place		Community

The link above gives access to the above landing page and users can navigate to all resources from here.

Locality Data

These embedded PowerBI reports can be accessed through the main Aberdeen Outcomes Framework landing page. The current range of locality data is shown below.

Data Observatory

Aberdeen City Data Observatory

The Aberdeen City Data Observatory is an information system built with business intelligence tools, designed with the capability to visualise statistical data and the analysis of geospatial data.

People

Place

Economy

Again, this resource is accessed from the Aberdeen Outcomes framework landing page and is a source of publicly available data on the People, Place and Economy of Aberdeen. Data is updated continuously as new data is released.

Elected Member Engagement

An engagement session for elected members on the availability and use of data is currently being scheduled, likely to be the beginning of June. This will be confirmed in early course. At this session, officers will demonstrate and talk through the practical use of these, and other, resources.
