ABERDEEN CITY COUNCIL

Corporate Governance
16 June 2011
Stuart Carruth Director of Corporate Governance
2010/11Capital Budget Progress Report
CG/11/065

- 1. PURPOSE OF REPORT
- 1.1 This report provides an update to Committee of the progress being made on the various projects within the Non-Housing Capital Programme, previously approved by Council, which are currently aligned to Corporate Governance.
- 2. RECOMMENDATION(S)

It is recommended that the Committee:

- a) Notes the content of this report in relation to the projects outlined at Appendix A, and
- b) Instructs the relevant officers to continue to work closely with the Corporate Asset Group and the Head of Asset Management and Operations and the Head of Finance to ensure effective monitoring of the programme going forward.
- 3. FINANCIAL IMPLICATIONS
- 3.1 The monies required to fund the capital programme are achieved through external borrowing, capital receipts and grant income. In recent years the overall programme has been set at a level which assumed a certain level of underspend would be achieved and thus the funding available was set on this basis. In previous years such underspend has been achievable but with significant spend this year on Corporate Accommodation, this was at risk.
- 3.2 This risk was reported to the Finance and Resources Committee which confirmed that funding for the programme should remain at the previously agreed level and instructed officers to proactively manage spend to be within that limit.

- 3.3 Since then, the Corporate Asset Group has worked with Services to determine their minimum spend requirement for the year. This has now been successful in bringing this requirement within the funding available.
- 3.4 The budget for 2011/12 was set at Council on 10 February 2011 at £40M of which £4M relates to Corporate Governance. This took account of the difficulties in sustaining the previously agreed capital position due to reducing capital funding support from the Scottish Government, increasing costs of borrowing and falling revenue funding.

4. OTHER IMPLICATIONS

- 4.1 Failure to invest adequately in the Council's asset base may lead to the erosion of those assets and their value. It may also reduce the effectiveness and efficiency of service delivery and furthermore lead to the Council not complying with current health and safety requirements.
- 4.2 If the continuation of close budgetary control is not exercised and maintained the Council may operate outwith the capital control mechanisms laid down by the Scottish Government in relation to the Prudential Code for the Non Housing Capital Programme.

5. BACKGROUND/MAIN ISSUES

- 5.1 Appendix A outlines the projects aligned to Corporate Governance and for each project shows the 2010/11 budget including any carry forward from 2009/10, the current service determined minimum spend requirement and near actual spend to 31 March 2011.
- 5.3 Comments from project managers are included in the narrative where appropriate.

6. IMPACT

Corporate – the projects considered in this report contribute to a number of the key priorities within the Community Plan and the Single Outcome Agreement in relation to improving the transport infrastructure, redeveloping the city centre and supporting the economic development of the city.

Public – this report is likely to be of interest to the public as a number of the projects covered by this report involve significant amounts of capital expenditure and have a high public profile.

7. BACKGROUND PAPERS

Financial ledger data extracted for the period.
