1. Key Facts

Purpose of Paper: To present engagement to date as well as the Consultation Plan for the refreshed Strategic Plan 2025 – 2029 ahead of the formal public consultation period and approval of the final Strategic Plan in March 2025.

Dates: Consultation period – 20th November 2024 – 12th February 2025 (12 weeks)

Leads:

- Strategy and Transformation Lead, Alison MacLeod
- Transformation Programme Manager, Stuart Lamberton
- Senior Project Manager, Grace Milne
- Development Officer, Matthew Carter

This document notes an extensive programme of engagement already undertaken as well as consultation planned towards March 2025. It is important to note that this will run alongside, and along with, the consultation on the Budget proposals – the project teams will take every opportunity to streamline and combine where relevant.

2. Overview of Engagement undertaken to date.

Page 38 of the Strategic Plan Evidence Document includes high level themed feedback from engagement undertaken to date. The Draft Strategic Plan has been informed by engagement with staff, colleague's, and partners.

It has also been informed by a number of other relevant and aligned consultations that have already taken place for the Carers Survey, City Voice (#49 on Health), the Locality Plans and the refresh of the Local Outcome Improvement Plan (LOIP), and the General Practice Vision 2024-30. The availability of this rich source of information is was extremely valuable and helped to avoid duplication and consultation/engagement fatigue. It also enabled us to develop a better informed draft with more detail that we might have otherwise been confident to include. Our community representatives on the Strategic Planning Group advise us that they find it easier to comment on a document that contains a lot of information , saying what they like and what they don't like rather than being presented with a blank sheet of paper and being asked what they would want to see included. It is hoped that this approach meets those needs also.

Our engagement to date has, therefore, been more streamlined than previously. Our approach initially was to sense check the key components of our Strategic Plan. This included asking all partners and stakeholders if our Aims, Vision, Values and Enablers are still relevant, and if not, what were we missing.

We also asked for opinions and options on how our Strategic Plan should be presented and what formats people find beneficial. During the initial engagement period we took the opportunity to check we are covering all relevant groups and contacts for consultation.

Themes to date (reflected in and incorporated within Draft Plan)

- Prevention and Early Intervention needs to stay high on our priorities if we are going to impact future health needs.
- Being honest with our financial forecast and implications, If service delivery needs to be affordable, be honest and say that.
- Honesty and Transparency are similar values do we need both?
- We need to make sure our communications are clear and any changes to access to services and new initiatives are consulted and communicated to the public
- Our current Strategic Aims are still relevant, however stigma, inequalities and sustainability are key themes mentioned in feedback.
- There should be less focus on 'business as usual' service delivery i.e. what we are already doing.
- We must rebalance towards prevention and early intervention e.g. falls prevention, management of long term conditions
- What do we need to do in relation to public communication and education using this
 as a tool for prevention encouraging self-care, improving health literacy, improving
 understanding that resources need to be targeted where they are needed not where
 they are wanted.

3. Purpose of Consultation

The purpose of our consultation is to take our initial Draft Strategic Plan 2025 – 2029 and consult with our key stakeholders including, public, staff, partners to

- Share our draft Strategic Aims, Priorities, Vision, Values and Enablers
- Show our linked partnership organisations, influencing strategies and legislation
- Clearly express our indicative priorities for Strategic Plan over the period 2025-2029.

- Enable opportunities to shape and develop the draft priorities ensuring we are not missing anything important
- Move focus on opportunities around prevention, service accessibility and financial position
- Collaborate with our key stakeholders to shape the delivery plan to achieve our strategic aims.
- Agree an approach on implementation of the Strategic Plan aims.

4. Interdependencies

Consultation on the Strategic Plan will run in conjunction the following:

- 1. ACHSCP Budget Consultation Process
- 2. Achievements of annual performance report promotion

This will provide opportunities to work together to increase the number of opportunities to input, reduce engagement fatigue and ensure that all views are captured as well as informing our stakeholders of our performance achievements to develop from.

NB: Not all of these opportunities will be captured here, but will be added as the plan develops further.

5. Data Protection

A Data Protection Impact Assessment (DPIA) Screening Questions and DP Checklist has been completed and <u>can be viewed here</u>.

A Privacy notice has been drafted and can be viewed here. As the information gathered will be hosted on ACC engagement platforms and analysed from ACC devices, the ACC DPIA process has been followed. This assessment determined that a DPIA was not required.

7.2. Consultation Approach

Largely, the approach to consulting with people about our Strategic Plan will follow an approach of "go where the people are" rather than to expect them to come us. We can do this by building on our existing high-traffic areas and events. We will be encouraging conversations and questions and also promoting feedback through the online survey questionnaire.

We have arranged a number of events to ensure we catch some of our key stakeholders and communities, but we are strongly encouraging and reaching out to those to invite us along to discuss with groups and communities where best suits them.

9. Understanding Impact

In order to understand the potential impacts on people with protected characteristics and those considered within our Integrated Impact assessments, bespoke focus groups will be contacted and established where appropriate and as identified above.

We have considered an initial stage 1 Integrated Impact Assessment – proportionality and relevance for our Draft Plan and Consultation. LINK DOCUMENT HERE

Additionally, our projects and programmes will undertaking separate engagement, inclusion and impact assessments as each progress.

10. Completing the Feedback Loop

We recognise the importance of demonstrating how the views and impacts gathered in the consultation and engagement process have shaped the Strategic Plan 2025 -2029.

There will be a full Communications Plan to support the Final Strategic Plan full launch, including feedback on what we have heard and what we have incorporated or not, and the reason why not. This will form the basis of our governance and delivery plan structure to ensure our key messages, initiatives, changes and impacts are clearly consulted and communicated within Aberdeen City.

Throughout the Consultation period we will be seeking views on how best people would like these messages to be relayed, there are many imaginative communication methods, and we want to ensure ACHSCP are engaging the best way possible.
