

# Aberdeen City Council – Development Management Team Consultation Request

## Response to application 231380 Kingswells House

Please select one of the following.

No observations/comments.	
Would make the following comments (please specify below).	
Would recommend the following conditions are included with any grant of consent.	
Would recommend the following comments are taken into consideration in the determination of the application.	<b>Y</b>
Object to the application (please specify reasons below).	

### COMMENTS

The following development is classified as commercial and therefore receives a business waste collection.

When providing feedback on commercial developments, I can only provide a very general response regarding commercial developments due to Aberdeen City Council not being the only waste service contractor available in the city.

See below for general comments:

- Business premises need to be provided with a bin store to allocate, within the property curtilage for the business waste and recycling bins
- Commercial waste bins cannot be stored on the street any day of the week as per Council Policy 2009 (Obstructions- Commercial Waste Bins). Infringement on the Council Policy can lead to a fine of £500 per bin as adopted by the Enterprise, Strategic Planning and Infrastructure Committee on 29<sup>th</sup> August 2013
- There are many waste contract collection providers operating in Aberdeen and each one provides different collection of waste and recycling services. For this reason, business premises need to liaise with their waste contract collection to ensure the correct management of their waste.
- Business premises have a legal Duty of Care covering all the waste they produce. This means that it is the Business premises responsibility to manage and dispose of any waste correctly.
- The Waste (Scotland) 2012 requires that **all businesses** from 1<sup>st</sup> January 2014 are required to separate paper, cardboard, glass, plastic and metals for recycling. Some businesses will additionally be required to separate their food waste (where food waste >5kg per week).
- General tips for site and hopefully the chosen waste collection contractor will detail this but for access, the following is needed:
  - An area of hard standing at storage and collections point(s)
  - Dropped kerb at proposed bin collection point
  - Yellow lines in front of bin collection point
  - Bin storage areas to ideally be provided with a gulley and wash down facility for the interest of hygiene

For further independent guidance about waste and recycling provision, storage and collection please refer to the following document:
