COMMENTS

Site Specific comments:

- To make use of current bins until commercial status can be determined.

See below for general comments:

- Business premises need to be provided with a bin store to allocate, within the property, the waste and recycling bins
- Commercial waste bins cannot be stored on the street any day of the week as per Council Policy 2009 (Obstructions- Commercial Waste Bins). Infringement on the Council Policy can lead to a fine of £500 per bin as adopted by the Enterprise, Strategic Planning and Infrastructure Committee on 29th August 2013
- There are many waste contract collection providers operating in Aberdeen and each one provides different collection of waste and recycling services. For this reason, business premises need to liaise with their waste contract collection to ensure the correct management of their waste.
- Business premises have a legal Duty of Care covering all the waste they produce. This means that it is the Business premises responsibility to manage and dispose of any waste correctly.
- The Waste (Scotland) 2012 requires that **all businesses** from 1st January 2014 are required to separate paper, cardboard, glass, plastic and metals for recycling. Some businesses will additionally be required to separate their food waste (where food waste >5kg per week).
- General tips for site and hopefully the chosen waste collection contractor will detail this but for access, the following is needed:
 - An area of hard standing at storage and collections point(s)
 - Dropped kerb at proposed bin collection point
 - Yellow lines in front of bin collection point
 - Bin storage areas to ideally be provided with a gulley and wash down facility for the interest of hygiene
