UPDATE:

During discussions at Committee in May 2025, the Convener sought further information on the 'Coffee With A Cop' initiative.

'Coffee With A Cop' is essentially a community surgery. It provides local residents the opportunity to speak to Officers and share concerns and also allows Officers the opportunity to provide public reassurance.

We have received a lot of positive feedback, with regular contact from community groups, elected members and local residents asking for an event to be hosted in their community. Looking ahead, new dates are being explored by the team and will be publicised at the appropriate time.

Should members or constituents wish to find out more they can contact the team at: NorthEastCPTAberdeenCity@scotland.police.uk.
