3. CURRENT SITUATION

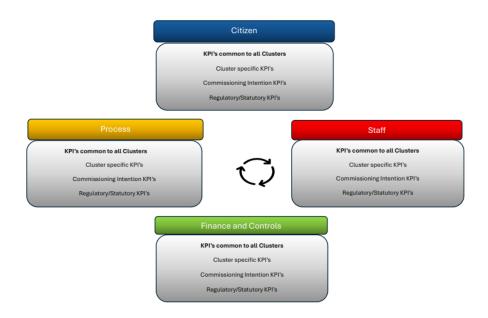

Report Purpose

3.1 This report is to provide members with appropriate key performance measures in relation to certain relevant services as expressed within the 2025/26 Council Delivery Plan, agreed at the April 16th 2025 Council meeting.

Report Structure and Content

- 3.2 Performance Management Framework Reporting against in-house delivery directly contributing to, or enabling delivery against, the city's Local Outcome Improvement Plan (LOIP) has informed development of successive Council Delivery Plans, including the 2025/26 Council Delivery Plan, agreed on 16th April 2025.
- 3.3 The Council's Performance Management Framework, supporting and enabling scrutiny against progress of the Council Delivery Plan and its key measures, establishes a robust performance management and reporting system which encompasses single and multi-service inputs, outputs and outcomes.
- 3.4 The refreshed Performance Management Framework for 2024/25 was approved at the meeting of Council on 21st August 2024. The Performance Management Framework for 2025/26 is due to be considered at the meeting of Council on 20th August 2025.

- 3.5 Service standards against each function/cluster, associated with Council delivery planning, offer continuous insight into the effectiveness, and accessibility of core service provision to the Council's stakeholders and city communities.
- 3.6 Where appropriate, data capture against these standards is now directly incorporated within the suite of metrics contained within Appendix A and will be reported against on either a monthly, quarterly or annual basis.
- 3.7 The Performance Management Framework provides for a consistent approach within which performance will be reported to Committees. This presents performance data and analysis within four core perspectives, as shown below, which provides for uniformity of performance reporting across Committees.

- 3.8 This report, as far as possible, details performance up to the end of June 2025 or Quarter 1 2025/26, as appropriate.
- 3.9 Appendix A provides an overview of performance across certain appropriate services, with reference to recent trends and performance against target. Further analysis is also provided of several performance measures which have been identified as of potential interest in terms of either performance implications or data trends.
