Cash Balances

- 5.5 The forecast cash balances as at 31 March 2012 is £6.1M.
- 5.6 The strategy approved by the Finance Monitoring Sub-Committee of 24 August 2004 has been applied. This utilises the Consumer Price Index (CPI) as a basis for calculating indicative cash balances to ensure that the value of the Fund is maintained over the medium to longer term. The calculation of an indicative cash balance using CPI as part of the budget setting process has been adopted as an underlying principle. At August 2004, a cash balance of £4.2M was set for the year ended 31 March 2005.
- 5.7 The Council has previously agreed that the cash balance should be no less than £4.9M in line with the recommendation from the Head of

Finance, after adjusting for the Greenfern Development Site, as at 31 March 2012.

- 5.8 As trustee of the Common Good, the Council has a duty to ensure that cash balances are maintained at levels to generate sufficient annual income to fund any future expenditure from the Common Good deemed appropriate.

6. IMPACT

It is essential that the value of the Common Good is preserved in such a way that it continues to be able to support the wide range of ventures it presently does, in the long term.

Note 1

The indicative cash balance is explained in section 5.5 of the main report and is the result of uplifting the original cash balance in 2004 by the CPI figure annually. It is to ensure the maintenance of the Common Good Fund over the medium to long term

Note 2

Included in the Common Good budget for 2008/09 was £450K of expenditure approved by Resource Management Committee on 18th January 2008 relating to the Greenfern Development Site. While the Common Good has adequate cash funds to meet this expenditure it will put pressure on the maintenance of the recommended minimum cash balances, pending the recouping of this expenditure at the completion of the project. The £450K has been uplifted inline with CPI to give £485K, to allow for the maintenance of its value. In view of this, where indicative cash balances are shown in this report they have been reduced by this amount to allow meaningful comparisons.

Note 3

The forecast outturn figure takes into account £1.3M of expenditure that takes place at year end e.g Funding of Twinning activities, Entertainment for the Elderly and Disabled and Contributions to Trusts and Festivals.
