Description of Proposal

Please provide a description of your proposal to which your review relates. The description should be the same as given in the application form, or as amended with the agreement of the planning authority: *
(Max 500 characters)

The application site comprises the curtilage of a ground-floor flat within a traditional four-in-a-block, two-storey granite tenement building with access to the ground-floor unit provided from the side (western) elevation. The building's principal (northern) elevation overlooks a grass covered garden with shrubbery and a paved pathway leading to the centre entrance for the first-floor units and wrapping around the side of the building. The front curtilage is bound by a low-level wire fence.

Type of Application

What type of application did you submit to the planning authority? *

Application for planning permission (including householder application but excluding application to work minerals).

Application for planning permission in principle.

Further application.

Application for approval of matters specified in conditions.

What does your review relate to? *

- ☒ Refusal Notice.
- ☐ Grant of permission with Conditions imposed.
- ☐ No decision reached within the prescribed period (two months after validation date or any agreed extension) – deemed refusal.

Statement of reasons for seeking review

You must state in full, why you are seeking a review of the planning authority's decision (or failure to make a decision). Your statement must set out all matters you consider require to be taken into account in determining your review. If necessary this can be provided as a separate document in the 'Supporting Documents' section: * (Max 500 characters)

Note: you are unlikely to have a further opportunity to add to your statement of appeal at a later date, so it is essential that you produce all of the information you want the decision-maker to take into account.

You should not however raise any new matter which was not before the planning authority at the time it decided your application (or at the time expiry of the period of determination), unless you can demonstrate that the new matter could not have been raised before that time or that it not being raised before that time is a consequence of exceptional circumstances.

I seek review as the refusal was based on the loss of a disabled bay. My survey shows it is almost exclusively used by one vehicle, which will still have immediate provision in the adjacent bay. School Drive has 13 disabled bays; 12 will remain. The Roads team did not object, neighbours supported, and the driveway will free road space, easing congestion and improving safety and amenity.

Have you raised any matters which were not before the appointed officer at the time the Determination on your application was made? *

☒ Yes ☐ No

If yes, you should explain in the box below, why you are raising the new matter, why it was not raised with the appointed officer before your application was determined and why you consider it should be considered in your review: * (Max 500 characters)

The additional matter is my parking survey and photographic diary. This was not included originally, as I was unaware that the disabled bay would form the basis for refusal. In response, I have since kept a detailed record of usage, which demonstrates the bay is rarely required and often misused, and therefore should now be considered.

Please provide a list of all supporting documents, materials and evidence which you wish to submit with your notice of review and intend to rely on in support of your review. You can attach these documents electronically later in the process: * (Max 500 characters)
