

Good afternoon, the LSO representation will be as follows:

Supplementary Policy – External Drinking Areas (Page 15 of Aberdeen City Licensing Board Statement of Licensing Policy, November 2023)

The Board will routinely attach additional conditions where an outdoor area is licensed including but not restricted to:

External Drinking Areas

It is a condition of the licence that:

- a) any outdoor area is clearly demarcated onsite.*
- (b) that use of the area is to cease at 2200 and*
- (c) that no amplified music or entertainment is to take place in the outdoor area.*

Due to the nature of events held and substantial grounds of the hotel, the LSOs believe that the playing of music in the external area is worthy of further discussion.

It should also be noted that there is a Residential Care Home under construction, immediately beside the hotel.

Best Regards
John Philip
