

Dear Sir/Madam,

I am contacting you in relation to the above application to raise my concerns.

As a Duthie Terrace resident who are in close proximity of the venue (Moossh) I am concerned with the extended opening hrs and proposal of live music.

Whilst we have adjusted to the venue being in the area and the impact primarily being:

Street parking, can be problematic with staff and patrons of the venue utilising the street where residents generally park.

Large vans / trucks delivering supplies via Duthie Terrace.

Noise when patrons are leaving the venue.

With the proposed application my concern is that the issues we already have will increase and given this is residential area I believe the current licence limits are appropriate.

I would appreciate if you can take these concerns into consideration when reviewing the revised license application.

Many thanks,  
Wendy Robb
