Comment : I object to this planning application on the following grounds.

The applicant has not made provision for suitable sanitary provision for clientele and staff as required by the Local Government(Miscellaneous Provisions) Act 1976.

Additionally the construction of this facility shows from the drawings provided that it is not a free standing structure and is attached to existing walls and as such could pose a danger to the structural integrity of the road above.

Comment : I wish to make known my support for this excellent scheme which I feel will be of great benefit to Aberdeen City Centre and the local community. It will help to bring the park into better use, publicise it as a safe space and encourage people to enjoy the wonderful views of Aberdeen's historic architecture. I am a frequent user of the park with my toddler son, as it is a lovely safe environment for him to wander in and wish this to continue. This project is forward-thinking, aiming to generate funds to support continued maintenance and sensitive sustainable development of the gardens. I applaud the efforts of Mr Bothwell and Common Good Aberdeen for having the foresight and enthusiasm to develop the proposal and sincerely hope that the new Aberdeen City Council will give it full support
