**Subject:** RE: Street Trader Application

Hi, sorry i just saw your email yes those details are all correct and i am aware of all comments as for york street and crawpeel road yes the van would be in parking layby and crawpeel road is not located opposite any business entrance ,

hope this is what u require

regards

karen sim

Subject: Street Trader Application

Hi Karen,

Please see below the comments from the Roads department. Please can you provide a response by Thursday 20th December 2012.

I have looked at the above application and have noticed that it relates to three separate locations within the application.

Although the Roads Authority would not object to any of the locations I would wish to make the following minor comments:

1. York Street - No problems with this one assuming the burger van is located within the lay-by.
2. Beach Esplanade - Just East of New Pier Road. - Once again no problem provided the burger van is not situated directly outside the toilet block. I would have thought that given the gradient of the road that it would be better placed on the flat straight section further North.
3. Crawpeel Road - Although limited details were provided regarding the actual location. Provided that its not located opposite the entrance to a business or causing a visibility issue at any adjacent access points then it would be acceptable.

Regards

Doug
