type :

Comment : As a Community Council we have reservations about residents being able to take over open land as part of their garden. We think that each application has to be looked at with great care so as not to create a precedent. In this case we feel that the amount of land is too much and will take away from the open aspect of the area. There is a house next door where a garden has been made out of open land but it is a smaller piece of land and has a low fence. We feel that the application is for too much land and should be rejected in this case.

**Subject:** Auchlossan

With reference to the application to include land into the ownership of 5 Auchlossan Court, The Bridge Of Don Community Council are pleased to see that the amount of land asked for has been decreased. We feel that each case requesting the change of use of open space to garden should be considered individually as we would not like the open spaces to be taken over throughout the site so that no open spaces were left. We would support the comments from neighbours but feel that this amount of land requested is an improvement from the initial request.
