

The following deputation request has been received in terms of Standing Order 10 in relation to item 8(a) on the agenda - Establishment of Short-term Halting Sites for Gypsies/Travellers:-

(1) Mr Mark Duffy - Bridge of Don Community Council

The action I will be proposing is to remit the report, ask officers to create an addendum, stating the specification of requirements, weighting the requirements. Consult and engage with the communities to find a site or sites acceptable to the specification, work with the community councils to score the matrix, and report to the first Council meeting after summer so a better consultation can be undertaken.
