Subject: further reasons to object

Dear Jacqui,

Following on from our objection letter that was received by the council I now attach further information which makes the likelihood of the mayday day parade taking place very slim indeed. I have added links to the last licensing meeting including the minutes, agenda. As you will see the meeting took place on the 26th March at 10am which was a full 20 days after you claim to have received the application from the trades council. Why was it not mentioned in the agenda and why also was the application not even listed in the applications for the whole of the month of March? It still hasn't been added to the latest applications list!

As you know the parade cannot be granted permission unless it is discussed by the committee and ANY objections are heard. As there is no meeting planned for April(meeting on the 17th is officially cancelled) this parade cannot be allowed to take place.

The meeting for April was cancelled and is in the public domain so that the public know that is has been cancelled. Unless the council re-arrange the meeting that would have to include the parade application and the attendance of any objectors the matter is finished with with no parade. If it goes ahead without permission the council are breaking all rules and regulations and this would become a police matter. We will officially complain to the police if this goes ahead without the proper discussions with all parties.

I trust this information is of help to you.
