Comment : I wish to object to this application for the following reasons, 1. This location is on land subject to the Council's Green Belt Policy and a large commercial development of this nature should not be permitted. In addition it would be a departure from the adopted Development Plan.

2. The area is a haven for wild-life and such a development would have an undesirable effect on the habitat, feeding and general security of the animals and birds.

3. The access road network is totally inadequate to cope with the traffic generated by such a development and would adversely affect road safety.

4. The development would result in undesirable light pollution arising from floodlighting, car park lighting and more extensive street lighting. The area at present is substantially dark.

5. In my view this would be a gross over development within the Hazlehead Park area which is presently used for purely recreational purposes by walkers, cyclists and horse-riders.
