### DESCRIPTION

- Vary the commencement hour to 11:00 hours Sundays
- Vary the terminal hour to 00:00 hours daily

### OBJECTIONS/REPRESENTATIONS

- Neighbour who is objecting on the grounds of preventing public nuisance and protecting and improving public health.

### LICENSING POLICY STATEMENT

#### Appendix 4 – Operating Hours

If granted the hours of trading would remain within guidelines for premises of this type in this location

#### 26 - Licensing Objective – Preventing Public Nuisance

26.1 The Board believes that licensed premises have the potential to have a significant adverse impact on communities. It wishes to maintain and protect the amenity of occupiers of other businesses and residents from the potential consequence of the operation of licensed premises, whilst recognising the valuable cultural, social and business importance that such premises provide.

26.2 The Board will interpret public nuisance in its widest sense and will take it to include such issues as noise, light, odour, litter and anti-social behaviour. In particular the Board will consider that flyposting is both a public nuisance (litter) and anti-social behaviour in terms of its impact on the community.

26.2 The following examples of control measures are given to assist applicants.

- effective and responsible management of premises
- appropriate instruction, training and supervision of those employed or engaged to prevent incidents of public nuisance, for instance to ensure that customers leave quietly
- control of operating hours for all or parts of the premises, for instance garden areas
- adoption of best practice guidance
- installation of soundproofing, air conditioning, acoustic lobbies, sound limitation devices and other mitigation measures
- management of people, including staff, vehicular traffic, queues, and patrons arriving and leaving premises
- liaison with public transport providers
- siting of external lighting, including security lighting and installation of an effective CCTV system (to a prescribed standard) which complies with relevant legislative requirements
- management arrangements for collection and disposal of waste and empty bottles
- effective ventilation systems to prevent nuisance from odour.
