Grace, thanks for your call today. Having looked at our records, the 3 maps you quote are relevant to Aberdeen City Council.

I attach these for your info.

In respect of their publication, I would rather these were not included in the documentation. However, it would be sufficient to detail in words roughly the area where the restrictions are, and to state something on the lines that "safeguarding maps are lodged with Aberdeen. Prospective applicants should contact Aberdeen City Council in order to confirm the height restrictions and subsequently NATS LTD should the requirement be to breach the height restrictions".

Regards
Sacha

Mr Sacha Rossi
NATS Safeguarding Office
