Dear Sir

I wish to make an objection on behalf of the Central North Aberdeen GP practices to plans for RS McColl's liquor license for their shops at Castle Street and Union Street.

You will be aware of the increasing health related problems we are seeing due to alcohol excess and binge drinking. I believe that the provision of alcohol in newsagents and corner shops is leading to an increase in the drinking habits of the population as it is so readily available. I therefore object to the expansion of this provision in the city centre.

I hope you will take the concerns of the GP practices in the area into account.

Yours faithfully

Claire Rebello
