1. PURPOSE OF REPORT

To confirm four provisional Tree Preservation Orders (TPO) made by the Head of Planning and Sustainable Development under delegated powers. The Orders currently provide temporary protection for the trees, but are required to be confirmed by the Planning Development Management Committee to provide long term protection.

Please Note: TPO 119/2015, 208/2015 and 224 have previously been confirmed by committee. We are seeking re-confirmation of these orders as part of the review of tree preservation orders. TPO 230 is a new recently served provisional order.

2. RECOMMENDATION(S)

It is recommended that Members:

1) confirm the making of Tree Preservation Orders 119/2015, 208/2015, 224, 230 without modifications and;

2) instruct the Head of Legal and Democratic Services to attend the requisite procedures.

3. FINANCIAL IMPLICATIONS

The cost of confirming the Orders will be met through existing budgets.

4. OTHER IMPLICATIONS

The making of a Tree Preservation Order generally results in further demands on staff time to deal with any applications submitted for
consent to carry out tree work and to provide advice and assistance to owners and others regarding protected trees. This is undertaken within existing staffing resources.

5. BACKGROUND/MAIN ISSUES

A TPO gives statutory protection to trees that contribute to the amenity, natural heritage or attractiveness and character of a locality. As outlined in the Local Development Plan Policy NE5: Trees and Woodland, the Council will take the necessary steps to ensure that trees are protected in the longer term. Protecting trees has the further benefit of contributing to the Council’s policies on improving air quality and helping combat climate change. Promoting the improvement and maintenance of environmental quality and townscapes also supports investment and economic competitiveness.

The process of applying for work to protected trees allows for Elected Members, Community Councils and members of the public an opportunity to comment on work to protected trees.

The trees in the following Tree Preservation Orders contribute to the local character of the area. The loss of these trees would have an adverse effect on this character. A Tree Preservation Order would ensure that trees could not be removed without the consent of the Council who would have an opportunity to have regard to the environmental implications of any proposals.

- Tree Preservation Order Number 119, Friarsfield Road, Cults (2015)
- Tree Preservation Order Number 208, 41 Hillview Road, Cults (2015)
- Tree Preservation Order Number 224, 34-40 Balnagask Road
- Tree Preservation Order Number 230, Kepplestone Mansion (2015)

6. IMPACT

*Improving customer experience*
Protecting trees will have a positive impact on preserving the character of certain areas of Aberdeen. The confirmation of the TPOs proposed in this report will ensure the long term retention of tree cover within the city; resulting in the retention of features that contribute to the character of the city. In addition, maintaining an up to date portfolio of TPO’s allows us to promptly reply to customer enquires.

*Improving staff experience*
Having properly managed TPOs assists in the processing of planning applications and allows enquiries to be dealt with effectively and promptly. As part of our TPO review we have produced a concise and
accurate database of orders. This database will be made available to relevant staff members.

*Improving our use of resources*
The making, management and enforcement of TPOs carry a financial cost, both directly through legal costs and indirectly through staffing resources. By ensuring that all TPOs can be justified we will ensure that our resources are utilised managing and enforcing orders that remain fit for purpose and provide positive benefits. By ensuring TPOs are fit for purpose we are also ensuring that our database resource is a reliable source of up to date information.

*Corporate*
In line with the Smarter City vision we have advertised these TPOs as Provisional Orders to allow members of the public to raise representations on the proposed orders. No representations have been received for the orders proposed to be confirmed in this report.

As outlined in Policy NE5: Trees and Woodland, the Council will take the necessary steps to ensure that trees are protected in the longer term thus the need to confirm the aforementioned Tree Preservation Orders.

Confirming these orders helps the Council fulfil its duty in terms of the statutory tree protection ‘The Town and Country Planning (Tree Preservation Order and Trees in Conservation Areas (Scotland) Regulations 2010’ introduced.

*Public*
The serving of a TPO will have limited interest to the general public other than the preservation of character and amenity of certain areas. There are no anticipated impacts on equalities with this proposal hence an Equalities and Human Rights Impact Assessment is not required.

7. MANAGEMENT OF RISK

There is a risk of loss of the trees if the recommendations are not accepted which would impact on people and the environment. If recommendations are accepted the Orders will ensure the long term protection of the trees on each of the sites by ensuring the trees should not be cut down or otherwise damaged without the express permission of the Council, hence securing the public amenity and environmental value of each site.

8. BACKGROUND PAPERS

Provisional orders are available to view on request; boundary maps for each order noted within this report are attached.
