

## **Policy D4 – Historic Environment**

The Council will protect, preserve and enhance the historic environment in line with Scottish Planning Policy, SHEP, its own Supplementary Guidance and Conservation Area Character Appraisals and Management Plan. It will assess the impact of proposed development and support high quality design that respects the character, appearance and setting of the historic environment and protects the special architectural or historic interest of its listed buildings, conservation areas, archaeology, scheduled monument, historic gardens and designed landscapes.

The physical in situ preservation of all scheduled monuments and archaeological sites will be supported. Developments that would adversely impact upon archaeological remains, including battlefields, of either national or local importance, or on their setting will only be permitted in exceptional circumstances, where there is no practical alternative site and where there are imperative reasons of over-riding public need.

In any such case, the applicant must at their own expense:

- take satisfactory steps to mitigate adverse development impacts; and
- where the preservation of the site in its original location is not possible, arrange for the full excavation and recording of the site in advance of development.

In those cases where this is not justifiable or feasible, provision should be made for excavation and record with an appropriate assessment and evaluation. The appropriate publication/curation of findings will be expected.

Further guidance can be found within the supplementary guidance and technical advice notes listed in Appendix 6.
