Subject: RE: Application to Renew an Indoor Sports Entertainment Licence - Aberdeen Sports Village

Good Morning Jacqui

We would have an objection to only being able to host 1 aquatics event at a time.

We believe that the building was designed to be able to host simulations events in the 25 metre and 50 metre pool, although this would only occur very infrequently we would still like the option. After approx. 6 years of operating Aberdeen Sports Village we know we have the operational knowledge and exemplary safety record to be able to host large events simultaneously.

This would provide us with more options when trying to attract major sporting events to Aberdeen, something we feel very passionate about.

Please could we be able to hold 2 simultaneous events at the Aquatics centre with a maximum occupancy level of 729 on level 2.

I look forward to hearing from you.

Regards

Danny
