Comment : I object to this happening because of the lack of playground space since it is not big enough at the moment and new build schools would not be allowed to built with this size of play ground . The playground could be reduced in size and the road with increased traffic is going to be closer to the playground with increased fumes , there is also going to be a lack of accessible access if the pavement is realigned. I am also concerned about the increase in traffic especially since a lot of pupils walk to school and the issues of crossing the roads at various points.
