Comment for Planning Application 160670

Address : 46 Mount Street

Comment : As part of clause 3.1.2 states that if the money that they pay isn't used then they will get it back (plus interest) in 7 years if it isn't used then isn't that enough? The projections are just that, it could easily change over the next few years especially with the oil price dip, there could be a lot more families that can no longer afford a private education looking to go to public schools now. Excusing the contribution all together when there is a clause that gives them any unspent cash back seems unnecessary and very "short-termist".
