Subject: Corner Tree Cafe @ 1 Desswood Place - 161455/DPP Change of Pavement use to Seating Area

Hello,

As a resident of Osborne Place, I just heard about this planning application last evening from a note slid underneath my door

Every day I pass by the Corner Tree Cafe and I have to say that I think that it is a fabulous enterprise and a major benefit to the whole area

It has definitely lifted and improved the feel of the whole area around it and I have even talked to students and a worker who comes from the Hilton area of Aberdeen, who have all recommended it to me

The idea of a "French" type cafe culture, with small tables operating outside in the street would really appeal to me and would definitely make me want to visit such a pleasant place on a nice warm summers day :O)

Regards,

Bill Christie, Geoscience Advisor, CA/IS/IMS/GSI
