**Subject:** Change of pavement use to seating area. Corner Tree cafe 1 Deswood Place -161455/dpp  
**Importance:** Normal

Oh dear me,

I am once again disappointed at the small minded attitudes of some people, these objections smart of what at best can be described as NIMBY ism, at worst just outright miserable scrooges.

How anyone can say a few tables and chairs on a very wide pavement not causing any obstruction will have any affect on their quality of life is absurd.

With regard to the operating hours I don't anticipate any one wanting to sit outside in the dark or cold weather.

Noise !! a cup being placed on a saucer a, wrapper being removed from a sandwich RIDICULOUS !! the school kids will and do make more noise passing by 3 times a day, and I know I hear them.

Deliveries ?? it is only a small Café not a Super Store the odd van bothering no one.

Litter ?? back to the school kids need I say more.

Traffic ?? There is ample pay and display close by and residents have their own parking area, and I reiterate it is only a small café not 100 seat restaurant.

Of course it is a residential area, that does not mean we cant have a little bit of space for social pursuit and casual meeting of friends.

Suffice to say I find no objection to this planning application, and truly hope that those in the position to authorise have more sense than those who should get a life.

As a foot note I personally will never utilise this outlet, but trust that those who would like to, get the opportunity.

Regards

Gerry Williams
