Dear Ms Dunbar

**Licensing (Scotland) Act 2005 – Application for a Variation of Premises Licence
The College, Ground & Mezzanine Floor, 9 Alford Place, Aberdeen, AB10 1YB**

I refer to the above application and in terms of Section 22(1)(a) of the Licensing (Scotland) Act 2005, I make the following objection under the licensing objective:

Protecting and Improving Public Health.

The applicant seeks to:

- Amend the on sales terminal hour on Sundays - Thursday to 02:00
- Amend the on sales terminal hour on Fridays and Saturdays to 03:00

The Aberdeen City Licensing Board Statement of Licensing Policy, 2013-2016 states at Section 20.7, paragraph 4:

“Premises in the City that provide significant entertainment (to the satisfaction of the Board) may apply and be granted later hours..” “The Board regards significant entertainment to be entertainment which is of such a nature to be the principal attraction for patrons to attend the premises and where alcohol is served to patrons only as an ancillary accompaniment to their attendance and/or participation in the entertainment provided. The Board considers in these cases that the entertainment is the principal reason for patrons attending the licensed premises and that the consumption of alcohol would therefore be ancillary to such entertainment.”

Since 1997, a five fold increase in the rates of hospital stays as a result of the harmful use of alcohol has been recorded for Aberdeen City Council residents. This category includes conditions such as alcohol induced irritation of the stomach, chronic disease of the heart muscle due to alcohol, mental and behavioural disorder that occur as a result of alcohol (such as depression, anxiety etc). Over this time period, there has been a steady increase in the number of admissions due to alcoholic liver disease.

The Scottish Public Health Observatory (ScotPHO) Health & Wellbeing Profiles for Aberdeen City identify Alcohol related hospital stays as being “statistically significantly “worse” than the National average¹.

I am not aware that this application has identified sufficient activity that would indicate “significant entertainment”. The premises does not provide restaurant or bar meals and has no dance facilities. Therefore I assume that the purpose of extending hours is to increase the time people have solely for the consumption of alcohol. Given the trend of preloading before going out, this provides additional time during which people are encouraged to drink more and I feel that this is prejudicial to public health.

When consideration is also given to the harmful use of alcohol for Aberdeen City Council residents I would therefore request that this application is not granted.

For these reasons, and in terms of Section 22(1) (a) of the Licensing (Scotland) Act 2005, the Public Health Directorate of NHS Grampian submits this letter of objection as the granting of the application would be inconsistent with one or more of the licensing objectives, namely Protecting and Improving Public Health.

Yours sincerely

Dr Tara Shivaji
Consultant in Public Health
