The position with the overdue recommendation is as follows:

Chief Officer	Overdue Recommendation	Grading / Due Date	Position
Governance	The Council should ensure a timetable is put in place for implementation of a policy framework for all Council policies (2.1.5)	Important March 2017	<p>As reported to Committee since June 2017, the Governance Review Board is monitoring progress of this project through the wider Governance Review Programme and had agreed to extend the collation / housekeeping aspect to the end of August 2017. Since September 2017, the Committee has been advised that the draft Framework has been developed and was ready to be submitted to the Governance Review Board in September 2017 for consideration. This did not happen as the Board was prioritising the Scheme of Governance documentation as per a Council decision.</p> <p>The Committee was advised in February 2018, that the Service had advised was that the Corporate Policy Framework will be referred to the Governance Delivery Board on the 15 February, 2018, with a recommendation that the Governance Function (which will include the remit for Corporate Policies) take ownership of it and ensure that it is in keeping with the design of the new function.</p> <p>The latest update from the Service is that a register of policies has been established and that work to develop a Policy Framework outlining the process and key principles to be followed for developing, categorising, approving and reviewing policies is aimed for completion by December 2018.</p>

---------------	--	-----------	----	----	----	---	---------------

The position with the overdue recommendations is as follows:

Chief Officer	Recommendation	Grading / Due Date	Position
Integrated Children's and Family Services	The Service should ensure that spend on supplies which are likely to be used by more than one school is forecast so that appropriate Committee approval and tendering can be completed for aggregate spend (2.4.7)	Significant September 2016	<p>As reported previously, the Service was in the process of identifying expenditure across the schools. It was anticipated that this would be completed by March 2017 and that expenditure across other Directorates would have to be considered. The Service then advised that, as there is currently no system to allow identification of collected spend on an item by item basis, it was more appropriate at that time to adopt a common sense approach to tackling the issue of compliance in overall school spend. The Service was therefore targeting the commodities that all schools would have a requirement for, eg transport for school trips. In the case of school trips, there is significant spend not currently covered by contract and the creation of a contract would significantly reduce the time taken by schools when seeking quotes for transport. The update at the September 2017 meeting of the Committee was that the Service anticipates that it will take until March 2018 to address this one issue.</p> <p>The latest update from the Service is that this work is now being progressed through the development of the newly introduced procurement work plan. It is anticipated that the work plan will be in place by June 2018.</p>

Progress with implementing the four recommendations that are overdue is as detailed below.

Chief Officer	Recommendation	Grading / Due Date	Position
People and Organisation	Where it is agreed that breaks will be paid, a register should be maintained of agreements providing details of the staff groups affected (2.3.5 (2))	<b>Significant</b>	As reported to the September 2017 meeting of Committee, HR advised that, due to the nature of work being undertaken in the area identified, there will be no deduction of unpaid break and risk assessments will be carried out for working over 6 hours with no break. Work is underway to seek approval for an amendment to the collective agreement the Council has with the Trade Unions for this group of staff. It was anticipated that this will take until the end of December 2017 to resolve.  The latest update from the Service, as advised to Committee in February 2018, is that there are some issues to resolve in relation to the content of the document and it is still the Service's aim to try and get agreement from all recognised Trade Unions. However, it is anticipated that this will take until the end of June 2018 to achieve.

It is anticipated that the requirements of the Framework will be implemented by June 2018.

Should this trial prove successful, Fleet would present the results and seek further approval to implement a telematics system for all fleet vehicles and plant. The results of the trial would demonstrate vehicle performance, driver behaviour and utilisation; the benefits will include increased utilisation and potential fleet reduction saving cost pressures on maintenance, fuel and department budgets. Initial results were anticipated by September 2017. The Committee was advised in November 2017 that information from the above trial was expected by the end of October 2017 whilst a further 2 or 3 systems were about to be trialled. Work is continuing to establish the most suitable form for recording this data in a secure and efficient manner.
