Compliance with the Job Description

1. Pensions Legislative and Governance context

1.1 The pension's landscape is characterised by a complex legislative framework. In addition to the legislation of individual schemes, there are industry-wide statutes that apply in whole or in part to public sector schemes, including the way in which schemes interact with state pensions etc.

1.2 Also of key importance is a knowledge of the governance frameworks that apply within the pensions industry (such as the Myners principles); within individual schemes (such as the LGPS Governance statement requirements); and within the organisations that administer the schemes (for example the CIPFA/SOLACE framework Delivering Good Governance in Local Government).

Full details of the scheme governance documentation and wider pension fund industry documentation can be found on the dedicated 'trustee' area of the Pension Fund website. In addition to this information regular training sessions are held for 'trustees' given by officers, fund managers, the scheme actuary and other advisors. In order to maintain an up-to-date knowledge of the pensions landscape the Convener/Vice Conveners must commit to attending a minimum of two UK wide pension conferences per annum. Recommended is the PLSA Local Authority Conference held annual in May which covers all aspects of the LGPS and the Local Authority

Investment Seminar held in the autumn giving a focus on investment management. Other events may arise during the year that would be of value to the Convener/Vice Convener of the Pensions Committee will be brought to the attention of members by officers.

The Convener/Vice Convener should as a minimum receive a monthly update from officers covering:

- ***Scheme Valuation***
- ***Administration Matters which are ongoing***
- ***Investment Matters ongoing***
- ***Pensions Market issues***
- ***Communication with employers and scheme members***

Where appropriate this report should be accompanied by a meeting with Fund officers.

2. Pensions accounting and auditing standards

2.1 The accounting requirements and associated disclosures are complex and involve a large actuarial element. Consequently this demands an understanding of the regime at all levels within the finance structure in order to comply with the requirements and to communicate the requirements and their implications both internally and externally.

Officers report annually to the Pensions Committee on the scheme annual accounts. From 2011 the scheme accounts and audit have been separated out from the administering authority Financial Statement. The scheme auditor reports directly to the Pensions Committee on the scheme accounts.

3. Investment performance and risk management

3.1 In the Local Government Pension Scheme and other schemes where contributions are invested and managed to meet future liabilities, understanding investment risk and performance constitutes a major element of the role of finance professionals. The skills required for managing and controlling investment activities are relatively specialised and at present there is no formal framework against which Funds can test their current skills and competencies.

All investment performance and risk management is reported by the Fund custodian. Regular training sessions are given to all Committee members on understanding investment performance and risk reporting. Understanding investment performance and risk are key functions of the Convener and Vice Convener of the Pensions Committee.

4. Financial markets and product knowledge

4.1 In those schemes with invested funds, an understanding of financial markets and products is fundamental. The depth of knowledge will depend to some degree upon the particular approach to investment management undertaken by the fund (The investment activities of LGPS funds for example can be split into two groups - those funds that use external managers to manage all of their

investment portfolio and those that undertake some or all of their investment activities using in-house investment managers).

The time given during the quarterly meetings of the Pensions Committee to reviewing financial markets and product knowledge is limited. This fundamental knowledge should be updated regularly not only by the Convener and Vice Conveners, but all 'trustees' through attendance at least one investment conference per annum. There is a wide selection of national conferences such as the PLSA or the Local Authority Pension Fund Seminar held annually at Celtic Manor, however there are also a wide number of conferences hosted by fund managers to which 'trustees' are invited. Likewise attendance at such events as the LAPFF annual conference provides 'trustees' with an insight to future legislation that make impact on the companies in which we invest. A list of forthcoming conferences is reported annually to the June meeting of the Pensions Committee.

5. Actuarial methods, standards and practices

5.1 The scheme actuary holds a key position in the financial management of a pension scheme. A successful pension scheme financial manager will need to be able to do more than simply manage the relationship with their actuary. They will need to understand, at some levels in detail, the work of the actuary and the way in which actuarial information is produced and the impact it has on both the finances of the scheme and the employer.

The triennial valuation and funding strategy statement are two key documents in the governance of the scheme. A copy of both documents can be found on the secure 'trustee' area of the Pension Fund website. Through regular meetings with the scheme actuary (at least twice a year) the Convener/Vice Convener, will build up an understanding of the actuarial process and role and influence that key stakeholders such as the Convener and Vice Conveners have in the process. Discussions held with other LGPS 'trustees' on an ongoing basis will enhance this process.
