Subject: External Balcony: Dizzy's Restaurant

I note that an application to use the external balcony at Dizzy's Restaurant and Bar has been lodged.

As a local resident, I am happy to see this business doing well.

However, as this is very much a residential area with properties facing directly onto Albert Lane, I would like to see a restriction on loud music being played on the balcony or projected from outside speakers. There are some residents who have babies and young children and some who work shifts and, therefore, I believe an absolute curfew of 9:00pm for loud music would be more appropriate than 11:00pm which is more standard for night noise limitations.

Kind regards
