Aberdeen AB10 1AB

Dear Ms Wilson

**Licensing (Scotland) Act 2005 – Variation of a Premises License
Coopers Bar, 43 John Street, Aberdeen, AB25 1LN**

I refer to the above application and in terms of Section 22(1)(a) of the Licensing (Scotland) Act 2005, I make the following objection under the licensing objectives:

Protecting and Improving Public Health

The applicant seeks to extend the terminal hour of the premises from 2200 to 2300 on a Tuesday and Thursday. As the premises are already trading from 0800 on both of these days, extending the terminal hour means that they will be exceeding the reasonable trading times recommended by the Licensing Board of 14 hours.

The Aberdeen City Licensing Board Statement of Licensing policy, 2013 – 2016 states at Section 20.3, paragraph 1:

“The Board will deem up to a maximum of 14 hours continuous trading in any 24 hour period to be reasonable. This is in accordance with the aforementioned Government Guidance which further states that any application for licensed hours for more than 14 hours should require further consideration to the effect of granting extra operating hours.”

The Board has already stated that the *“14 hour maximum trading period is not exceeded in order to help reduce alcohol related crime and health harms.”*

The health harms of alcohol in Aberdeen City are both substantial and increasing. Since 1997, a five-fold increase in the rates of hospital stays as a result of the harmful use of alcohol has been recorded for Aberdeen City Council residents.

Alcohol-related Hospital Statistics Local Authority: Aberdeen City

Back to Contents

Aberdeen City
All alcohol conditions (General acute)
European Age-Sex Standardised Rates (EASR) per 100,000 population

Select Local Authority
Aberdeen City

Select Hospital type
General acute

Select Condition
All alcohol conditions

Aberdeen City
All alcohol conditions (General acute)
Average number of stays per patient

Aberdeen City: Stays (General acute)
Main conditions
EASR per 100,000 population

Although alcohol related hospital stays appear to be on a decreasing trend there is evidence of an increasing trend in alcoholic liver disease stays – see graph above. This figure is currently over double the rate recorded in 1997/98¹.

Recently published data on Alcohol Related Deaths for Aberdeen suggest an upward trend in the numbers of people dying as a result of alcohol².

When consideration is given to the health harms caused by alcohol for Aberdeen City Council residents I would request that this application for trading in excess of the reasonable 14 hours is not granted.

Actions that limit the availability and access to alcohol can only assist in improving health outcomes for the Aberdeen City population.

² <https://www.nrscotland.gov.uk/files//statistics/alcohol-related-deaths/2016/alcohol-related-deaths-2016-tab3.pdf>

For this reason, and in terms of Section 22(1) (a) of the Licensing (Scotland) Act 2005, the Public Health Directorate of NHS Grampian submits this letter of objection as the granting of the application would be inconsistent with one or more of the licensing objectives, namely Protecting and Improving Public Health.

Yours sincerely

Dr Tara Shivaji
Consultant in Public Health
