### 1. PURPOSE OF REPORT

- 1.1 The purpose of this report is to
  - i) bring to Committee members notice the current year revenue budget performance to date for the services which relate to this Committee; and
  - ii) advise on any areas of risk and management action.

### 2. **RECOMMENDATION(S)**

2.1 It is recommended that the Committee:

- i) Note this report and the information on management action and risks that is contained herein; and
- ii) instruct that officers continue to review budget performance and report on service strategies

### 3. FINANCIAL IMPLICATIONS

- 3.1. The total Education, Culture & Sport budget, amounts to £185 million net expenditure. This is made up of £200 million of gross expenditure, offset by £15 million of Income and recharges.
- 3.2. Based upon present forecasts it is anticipated that the financial performance of the service will result in an unfavourable movement on the Council finances overall. This position will be reflected in the overall financial monitoring for the Council when it is reported to Finance and Resources Committee at the end of this Committee cycle.
- 3.3. Further details of the financial implications are set out in section 6 and the appendices attached to this report.

### 4. SERVICE & COMMUNITY IMPACT

4.1. As a recognised top priority the Council must take the necessary measures to balance its budget. Therefore Committees and services are

required to work within a financial constraint. Every effort is being focused on delivering services more efficiently and effectively.

### 5. OTHER IMPLICATIONS

5.1. Every organisation has to manage the risks inherent in the operation of large and complex budgets. These risks are minimised by the regular review of financial information by services and corporately by Members. This report is part of that framework and has been produced to provide an overview of the current operating position.

### 6. REPORT

- **6.1** This report informs members of the current year revenue budget performance to date, for the service's budget and provides high level summary for the consideration of Members, to period 3 (end to June 2010). The exception to this is the more recent movement in respect of the Out Of Authority Placements budget, where it is felt important to reflect the most up to date position.
- **6.2** The service report and associated notes on progress towards achievement of the 2010-11 savings targets are attached at Appendices A and B.

### 2009-10 Approved Savings

There are 37 approved savings, for 2010-2011 totalling £8,560,000. These are listed at Appendix A. Against each of the savings is a narrative detailing the progress to date on each of these. The current forecast is that the service is on target to achieve the majority of these savings, although the following savings are noteworthy.

### DS01 & DS02 – Directorate & Operational Support Costs £810K

Although a number of staff have already left the service, more are scheduled to leave within the next few months. This is expected to generate additional savings. An exercise is underway to confirm the exact staffing saving which will be generated.

### L05 – Facilities Savings £750K

There is a double count in savings between Enterprise, Planning & Infrastructure and EC&S in relation facilities. The extent of this double count is £400K and lies within the EC&S budget. Methods by which this potential overspend can be minimised are being examined by both services.

### **Financial Position and Risks Assessment**

In overall terms at this stage, analysing Appendix B, the position reflects a potential overspend of £640,000 It should be noted that this forecast position does not take account of the payment of increments or of corporate savings which have still to be allocated to services. This will be

adjusted following decisions by the council and corporate management team.

**6.3** At this time, the following areas of risk are highlighted together with management action being taken.

### a) Out Of Authority Placements

This is an aligned budget with Social Care and Wellbeing which funds those costs associated with educating and accommodating children in specialist schools and residential not run by Aberdeen City Council. The total aligned budget is  $\pounds 6,506,000$ , of which the Education Culture and Sport part of this budget totals  $\pounds 2,631,000$ .

An analysis of costs and commitments for this aligned budget is shown at Appendix 3. There are currently 74 children at residential schools not run by Aberdeen City Council. The total costs shown per school may include charges for children who have previously been on the role of the school but who have since left. The level of cost per child may vary based upon factors such as the level of support required, whether they are day or boarding pupils, and the type of provision in which they are placed.

The latest estimate as at 22 June 2010 is that the total aligned budget has an anticipated overspend of £1,148,000. The Education, Culture and Sport element of the aligned budget is likely to be over-committed by  $\pounds$ 456,000.

Note that commitments fro Secure Accommodation are based on the assumption that all placements end after 3 months. In forecasting likely expenditure for the year, it would then be necessary to allow for new secure placements and/or extensions to existing placements. The risk and likelihood is presumably that actual expenditure on secure placements will exceed the current level of commitment and it will be necessary to identify other reductions in commitments in order to manage the cost within existing budgets.

The projected overspend at present is £1,148,000 across the two services and the development of the proposed Intensive community support service will have an impact on this budget in the year 2010/11. New screening, resource and authorisation arrangements have been implemented, which are designed to impact on the numbers of children and young people being accommodated and going to residential school.

### b) Sports

It was assumed that the Sport Aberdeen would take over responsibility for Sports from 1 April 2010. The actual date of transfer was 9 July 2010, and this has had a knock on effect on budget savings associated with the transfer.

Full year savings in relation to property rates (£400k) and annual contributions to the Aberdeen Sport (£500K) are projected to be £230K

less than budgeted following the delayed transfer. The savings in 2010/11 are expected to be  $\pounds 670 \text{K}$ 

c) Energy Costs

Energy Costs are estimated to be £540,000 greater than budget In line with the budget preparation instructions no uplift was built into the 2010-11 budget energy uplifts associated with contractual changes. There is however a central contingency for energy costs held by Corporate Accounting. All services have now been requested to identify their energy budget shortfall so an allocation can be made from this contingency.

### 6.4 Additional Grant Funding

Members may be interested to note that an additional grant of £100,800 has recently been notified to the service to support quality assurances and moderation of assessments whose purpose is support for the implementation of assessment approaches to Curriculum For Excellence.
