Dear Sir/Madam,

The above application has been assessed by this Service in relation to any music noise breakout from live music played/performed at the premises. Consideration has been given to the risk of noise impact on local residences at the proposed times listed in the application.

As with any such matter it is naturally desirable to avoid a situation that would result in this Service serving formal notices to abate activities that have caused nuisance.

Having carefully considered the matter I am not objecting to this application. There is however an expectation that Management at the premises would establish and apply suitable and robust noise control measures associated with music noise to protect the amenity of local residences and **reduce the risk** of noise impact and disturbance constituting a statutory nuisance.

I would recommend that these noise control measures are formalised in writing to demonstrate and convey to staff for training purposes the specific detail of the required noise controls.

I trust this information is of use. If you have any queries, please contact me on the number below.

Kind regards

Barbara Armstrong-Hill
