For the attention of Jennifer Wilson, Team Leader, Legal and Democratic Services, Corporate Governanance, Aberdeen City Council

Licensing Board Meeting 12 March 2019

Variation – Revolution, 25 Belmont St. ,Aberdeen AB10 IJS

The above application has been assessed by this Service in relation to any music noise breakout from amplified / non-amplified music played / performed at the premises. Consideration has been given to the risk of noise impact on local residences at the proposed times listed in the application.

As with any such matter it is naturally desirable to avoid a situation that would result in this Service serving formal notices to abate activities that have caused nuisance.

Having carefully considered the application I am not objecting to this application.

However, there is an expectation that management at the premises would establish and apply suitable and robust noise control measures associated with music noise to protect the amenity of local residents and reduce the risk of adverse noise impact constituting a statutory nuisance.

I would recommend these noise control measures are formalised in writing to demonstrate and convey to staff for training purposes the specific detail of the required noise controls. A copy of these noise control measures should be submitted to this Service for approval.
