5	Sustainable Drainage System (SUDS) Section 7	Maintenance of SuDS within the boundaries or curtilage of a private property, such as a residential driveway or a supermarket car park, is the responsibility of the land owner or occupier. The Scottish Environment Protection Agency's (SEPA's) preference is for SuDS constructed outside the boundaries or curtilage of a private property to be adopted by Scottish Water, the local authority or a public body, and as such SEPA seeks a guarantee for the long term maintenance and sustainability of any SuDS implemented.		Alan Robertson	Operations and Protective Services	Operations	Purpose 1		Delayed till September meeting. Only 8 out of 32 local authorities have signed up to the MOU with Scottish Water – another 19 are considering their options. So nationally things are less advanced than we thought they would be at this stage. Signing up to the MOU commits ACC to significant costs which would increase annually as SuDS come on stream. The lack of progress at a national level gives us more time to consider our options and in particular how future maintenance of SuDS will be funded.

A report on the asset may be submitted to the Committee if the asset is to be disposed.

	St Peter's School - Long Terms Education Provision	ECS Ctte 16th Nov ' 17 - to instruct the Head of Policy, Performance and Resources to undertake a feasibility study to identify improvements to Riverbank School and the associated costs, including the costs of bringing up to category A and to report to the Committee at its meeting in January 2018. Transferred from the Capital Programme Committee Planner in line with the changes to the Terms of Reference agreed by Council.	Given that the proposed improvement works for the existing Riverbank School building would not commence until after the planned new replacement Riverbank School becomes operational (anticipated to be from 2021), officers considered that it would be prudent to delay seeking final approval for these works until a later date, when the cost of the project at 2021 prices can be predicted with a greater degree of accuracy. This would still allow sufficient lead-in time for the works to commence soon after the existing Riverbank building becomes vacant, whilst also providing greater assurance that the project can be completed successfully within budget.
