

Good Morning, in relation to this application the LSO has no comments relating to the change of name or change of hours as per the variation application .

However, if the Board is not satisfied that the area specified on point 4 is not deemed to be an internal area then the LSO recommends that the current conditions are retained for this area as per below:

22:00 hours as the terminal hour
No amplified music or live entertainment
Demarcation of the external area

Best Regards
John
