

Email from Applicant dated 17/02/2022.

Good afternoon Dave

Could you please present my request below to the licensing committee on my behalf at their next meeting

Would the committee give me permission to grant a PHC license on my current vehicle that is just over 5 years old but is plated on yellow plate at the moment. (T731).

I am requesting this as my vehicle is currently on a license that is not mine and under the revised policy coming into effect from 1/4/22 would need to be removed at some point

I understand I would have to apply for this license to be granted but hope the committee look favourable on my request

Regards
Steve Smith
